Nihil philosophicum a nobis alienum putamus

Cumulative Index of Nous, 1967-1976

Åqvist, Lennart; AUTHOR: I, 361-79; II, 253-70; III, 299-323; utilitarian principle: X, 121-44; I, 381-400; III, 373-98; VII, 407-12.

Abortion; utilitarianism: X, 145-71.

Abduction: V, 299-312.

Abélard: V, 273-97.

Abraham, William: AUTHOR: VI, 1-13.

Absolute space: VI, 289-309.

Abstract entities: II, 373-89; IV, 15-24, 311-35, 25-32.

Acceptance: rules: III, 285-97; VII, 81-103.

Ackermann, R.; AUTHOR: VII, 138-51.

Achinstein, P.; AUTHOR: VII, 366-78.

Ackrill, J.; AUTHOR: IV, 81-91.

Acquaintance; Hume: I, 255-82; principle of: IX, 429-46.

Actions; alternatives of: V, 237-52, 373-84; basic: II, 187-90; V, 39-45; and causes: VII, 299-307; causes of: III, 49-72; cooperative: VII, 53-65; decisions: II, 65-73; V, 373-84; and events: V, 335-49; VII, 179-202; VIII, 41-52, 233-58; free human: VIII, 195-99; and free will: II, 293-301; IV, 367-83; intentional: IX, 115-42, 165-85; and knowledge: IX, 211-25; linguistic: II, 1-23; III, 169-83; V, 27-37; mental: I, 97-121, 255-82; II, 131-45, 271-92; IV, 311-35; IX, 165-85; and object: IX, 55-72; obligations: I, 303-44; III, 299-323; open to choice: V, 373-84; particular *vs.* generic: V, 237-52, 373-84; performability of: V, 237-52; phatic *vs.* rhetic: VI, 201-24; as propositions: V, 373-84; rational: III, 285-97; VIII: 53-65; right: IX, 211-25; right and wrong: IX, 211-25; utility of: VIII, 185-94; SEE ALSO: Consequentialism; Utilitarianism (ACT).

Actuality; IV, 175-88; theories of: VIII, 211-31.

Acts, speech; SEE: Speech Acts.

Adams, Marilyn McCord; theories of actuality: VIII, 211-31.

Actuality; IV, 175-88; theories of: VIII, 211-31.

Acts, speech; SEE: Speech Acts.

Adams, Marilyn McCord; theories of actuality: VIII, 211-31.

Adams, Robert M.; AUTHOR: VIII, 211-31; on possible worlds: X, 65-75.
Adler, Irving; conditional probability: I, 381-400.
Adjectives; and mass-noun constructions: IX, 143-64.
Adverb: II, 247-51.
Adverbial modification: IV, 25-32, 311-35; V, 179-89, 335-49.
Aesthetics; and preferences: VIII, 13-24; representation in works of art: X, 49-61; representational music: VI, 41-53; sense-perception: I, 123-38.
Agents; rational: VIII, 233-58.
Ager, Tryg A.; AUTHOR: VIII, 119-34.
Albritton, Rogers: III, 73-82; on Wittgenstein: VII, 313-29.
Alethic Modalities; SEE: Logic, modal.
Allaire, E. B.; base particulars: I, 211-12; Berkeley: I, 255-82; perceiving: IX, 55-72.
Allen, C. K.; laws: I, 63-79.
Alston, William P.; AUTHOR: II, 1-23; III, 169-83; actions: III, 49-60; Aune on thought and language: III, 169-83; on meaning and use: VII, 282-298; ontological commitment: II, 25-46.
Ambiguity; in natural language: II, 359-72; IV, 33-43; and quotation: IV, 271-77; referential: V, 273-97; semantic: VIII, 157-64; syntactical: VIII, 157-64, 233-58; and truth: VII, 379-94; typical: IX, 33-53.
Amounts; and measures: IX, 143-64.
Ambrose, A.: III, 103-8; VII, 103-120.
Analog; representation of numbers: V, 321-27.
Analogical Arguments; for other minds: III, 259-84.
Analytic, Synthetic; III, 373-89; arithmetical propositions: V, 253-71; C. I. Lewis on: IX, 211-25; hypotheses: V, 351-61; statements and information: IV, 135-52; and true: IV, 385-97.
Anderson, Alan Ross; AUTHOR: I, 345-60; commitment: I, 345-79; deontic logic: I, 381-400; III, 373-98; distributivity of contingency: III, 129-53; entailment: III, 129-53; VI, 335-59; tautological entailment: III, 253-70.
Anderson, C. A.; logic of sense and denotation: VIII, 135-56.
Anderson, J. L.; distribution in traditional logic: III, 103-8; relativity theory: IV, 261-69.
Angell, R. B.; AUTHOR: VIII, 87-117; subjunctive conditionals: III, 129-53.
Animals; killing of: X, 145-71.
Anscombe, G. E. M.; acts and reasons: IV, 367-83; V, 335-49; intention: VII, 56-67; pretending: I, 299-301; temporal relations: IV, 153-73; on Wittgenstein: I, 413-19; II, 341-58.
Anselm; and actuality: IV: 175-88; ontological argument: III, 259-84; IV, 175-88.
Antinomies; semantical: VIII, 135-56.
A priori; information and deduction: IV, 135-52; C. I. Lewis on: IX, 211-25; mathematical propositions: V, 253-71.

Aquila, Richard E.; AUTHOR: V, 411-17.
Aquinas, St. Thomas; cosmological argument: III, 259-84; determinism: III, 235-58; judgments: VII, 45-56; knowledge and belief: VIII, 273-82; memory: IV, 71; modality: III, 235-58.
Argument; deductively valid: VI, 274-81; SEE ALSO: Ontological arguments; Transcendental arguement.
Aristotelian Logic: II, 95-96; III, 103-8, 235-58; IV, 1-12.
Aristotle; actions: II, 131-45; IV, 367-83; ambiguity: II, 359-72; amounts: IX, 143-64; *De Anima*: VII, 45-56; Aquinas on: VII, 45-56; belief and knowledge: VIII, 273-82; change: II, 303-14; essentialism: I, 33-62; VII, 351-65; formal cause; VI, 119-37; intrinsic goodness: I, 81-90; language learning: IV, 33-43; memory: IV, 59-70; natural kinds: III, 95-101; necessity: III, 235-58; quantification: IV, 1-12; recurrence of events: IV, 15-24; on science: VI, 55-69; sortal predicates: VII, 268-82; stuff: VI, 369-77; suppression in arguments: VI, 335-59.
Arithmetic; empirical propositions: V, 253-72; Kant: II, 271-92; models of: V, 363-72.
Armstrong, D. M.; intentionality: VI, 281-87.
Arnaud, Richard B.; AUTHOR: IX, 421-5; X, 283-304; response to: IX, 427-8.
Arnauld, A.; X, 3-15; comprehension: I, 161-79; Leibniz: VIII, 381-98.
Arnold, Magda; emotions: II, 1-23.
Aronson, Jerrold L.; AUTHOR: VIII, 119-34.
Arrow, Kenneth J.; maximization thesis: VI, 97-117; paradox: X, 221-44.
Art; ontology of: IX, 115-42; representational music: VI, 41-53.
Arts; representation: X, 49-61.
Ashby, R. W.; distributivity of contingency: III, 129-53.
Assertion; conditional: IV, 1-12; of propositions: IX, 211-25; and utterances: III, 169-83; SEE ALSO: Speech Acts.
Athenian Approach to History of Philosophy: VIII, 381-98.
Atomism; facts: III, 325-43; V, 395-409; Hume: I, 255-82; SEE ALSO: Nominalism.
Atoms; mereological: IX, 143-64.
Attfield, Robin; AUTHOR: VII, 282-98.
Attitudes; intentional: IX, 165-85; moral: I, 139-60; II, 1-23.
Attributes; classes: I, 231-41; II, 373-89; compatibility of in Leibniz: VI, 1-13; counterpart: I, 97-121; existence in second-order logic: II, 165-75; III, 33-48; modal logic: I, 91-96, 181-91.
Attribution; logic of: VI, 310-34.
Attributives; modifiers of: VI, 310-34.
Augustine, St.; beginning of events: IV, 15-24; length of time: V, 39-47.
Aune, Bruce; AUTHOR: I, 215-29; locutionary acts: VI, 201-24; thought and language: III, 169-83; sense impressions: VII, 45-56; III, 49-60.
Aussersein; Meinong: VIII, 67-82.
Aussonderungs Axiom; SEE: Separation Axiom.

Austin, J. L.; actions: II, 131-45, 209-27; *How to Do Things With Words*: VII, 56-67; illocutionary acts: I, 215-29; VI, 201-24; law: I, 63-79; II, 47-64; locutionary acts: VI, 201-24; ontology of sensible manifold: V, 3-14; pretending: I, 299-301; senses of 'say': VI, 201-24; sense-perception: I, 123-38; truth: VI, 201-24.
Authority; political: VI, 15-26.
Avez, A.; space-time: IV, 261-69.
Awareness; neuropsychology of: VIII, 327-42.
Axiom of Comprehension; SEE: Comprehension Axiom.
Ayer, A. J.; deduction and information: IV, 135-52; laws of nature: II, 315-40; mathematical propositions: V, 253-71; meaning: IV, 33-43; moral judgments: II, 1-23; persons: III, 49-60; redundancy theory: II, 101-19; and sense-data: VII, 120-38; and C. L. Stevenson: I, 139-60.

Baier, Annette; basic actions: V, 39-47.
Baier, Kurt; AUTHOR: I, 139-60; VII, 56-67.
Baker, Robert; AUTHOR: I, 211-2.
Bakunin, Michael; the State: VI, 15-26.
Bansch, A. F.; logic of sense and denotation: VII, 24-33; VIII, 135-56.
Barcan formula: III, 17-32, 155-67; V, 419-21; SEE ALSO: Marcus (Ruth Barcan).
Bargaining problem; in game theory: VIII, 53-65.
Bar-Hillel, Y.; utterances: IX, 193-204.
Barker, S.; on induction: VII, 366-78.
Barnes, Gerald; group actions: X, 173-94.
Barnes, Jonathan; apodexis *vs.* dexis in Aristotle: VI, 55-69.
Baron, R.; neuropsychology: VIII, 327-42.
Bartley, William Walter; rationalism and self-reference: IV, 405-9.
Bayesian; decision theory: III, 285-97; fallibalism: V, 299-312; statistical inference: I, 401-11.
Becker, O.; iterated modalities: III, 155-67.
Beckner, Morton; taxonomy: IV, 189-99.
Bedau, Hugo A.; AUTHOR: X, 87-8.
Bedford, Errol; emotions: II, 1-23.
Behavior; belief: III, 285-97; classification; IX, 17-32; consciousness: III, 49-60; consumer's: VIII, 13-24; functionalism: III, 83-93; intentionality: III, 49-60; linguistic: I, 97-121, 413-19; III, 169-83; IV, 385-97; minds: III, 49-60; pattern-governed: VII, 152-63; and psychological states: VIII, 327-42; purposive: III, 61-72; rational: III, 285-97; VIII, 53-65; and rationality: IX, 211-25; and rules: IX, 211-25; rule-governed: I, 345-60; III, 169-83; verbal: IV, 385-97; SEE ALSO: Actions; Pretending.
Behaviorism: III, 49-60; 169-83; V, 81-96.
Behmann, H.; contextual definition: VI, 153-64.

Belief; actions: III, 49-60; IV, 367-83; believing who: III, 399-408; causal judgments: III, 61-72; degrees of: IV, 135-52, 337-48; desire: IV, 367-83; dispositional: III, 197-209; epistemic logic: I, 1-62; II, 391-98; III, 33-48, 399-408; VI, 85-95; evidence: III, 83-93; false: II, 359-72; VIII, 273-82; in God: III, 259-84; VIII, 273-82; Hume: I, 255-82; intentionality: III, 49-60; justified tone: III, 227-31; knowledge: VIII, 273-82; and logical ought: VIII, 233-58; in nonexistent entities: VIII, 67-82; notational and relational: IX, 421-6; notational sense: VI, 85-95; occurrent: III, 197-209; principles of: VIII, 233-58; quantification: III, 299-408; rational: III, 285-97; relational sense: VI, 85-95; satisfaction: VI, 85-95; -sentences: VIII, 157-64; truth: VI, 85-95; SEE ALSO: Attitude; Knowledge; Propositional.

Belnap, Nuel D.; AUTHOR: II, 177-85; IV, 1-12; conditional assertion: IV, 1-12; distributivity of contingency: III, 129-53; entailment: I, 345-60; III, 129-53; VI, 335-59; propositions: IV, 4-5; quantification: IX, 165-85; questions: III, 211-18; Quine: IV, 1-12; restricted quantification: IV, 1-13; substitutional quantification: II, 177-85; IV, 271-77; VI, 224-50; VIII, 361-69; tautological entailment: II, 253-70.

Benacerraf, Paul; logical form: VIII, 157-64.

Benn, S. I.; duties and rights: IV, 45-55.

Bennett, John Cates; theories of actuality: VIII, 211-31.

Bennett, Jonathan; distributivity of contingency: III, 129-53; geometry of visibles: VIII, 87-117; identity of statements: V, 107-38; Kant and idealism: V, 15-26; modality: IV, 405-9; size of universe: IV, 261-69; suppression of logical laws: VI, 335-59.

Bentham, J.; duties and rights: IV, 45-55; influence on Mill: X, 101-20; utilitarianism: I, 81-90.

Berg, Jan; on obligation: I, 345-60.

Bergmann, Gustav; bare particulars: I, 211-12; change of properties: IV, 279-83; constituent ontology: IV, 109-34; exemplification and predication: VI, 165-87; on Frege: VIII, 343-59; intentionality: II, 271-91; V, 411-7; internal connections: I, 255-82; Meinong on individuals: VIII, 67-82; objects and facts: IV, 209-23; ontology: VI, 165-87; possible facts: V, 411-17.

Bergmann, P.; space: IV, 261-69.

Bergström, Lars; AUTHOR: V, 237-52; X, 121-44; act-utilitarianism: III, 299-323; alternative sets of actions: V, 237-252; performability of actions: V, 237-252; utilitarianism: V, 237-252.

Berkeley, Bishop; absolute space: VI, 289-309; ideas: I, 123-38; 255-82; II, 271-92; ideas of sense: IX, 55-72; knowledge of third dimension: VIII, 87-117; perception: II, 271-92; and phenomenalism: VII, 120-38; scepticism: V, 3-14.

Berlinski, David; AUTHOR: III, 111-28.

Bernays, Paul; Bernays' lemma: III, 185-96; contextual definition of 'sum': VI, 153-64; identity: VIII, 309-25; implicit definitions: III, 185-96; names of natural numbers: V, 199-211; set theory: VIII, 1-12; IX, 33-53.
Bernoulli; kinetic energy: VIII, 119-34.
Berofsky, Bernard; AUTHOR: 315-40; causation: IX, 3-16.
Beth, Evert W.; quantifiers: II, 177-85.
'Better'; SEE: Preference.
Binkley, Robert; AUTHOR: III, 49-60; IV, 271-77; quantification: IV, 271-77; V, 213-14; VI, 224-39; quotation: IV, 271-77; V, 213-14; VI, 224-39; semantic paradoxes: IV, 271-77.
Birjukov, B. V.; sense and denotation: I, 207-9.
Birkhoff, G.; lattice theory: III, 95-101; IV, 189-99.
Black, Duncan; majority voting: VI, 97-117.
Black, Max; AUTHOR: VII, 67-77; performatives: II, 209-27; on Tarski: IV, 285-97; temporal relations: IV, 153-73; on Wittgenstein: II, 341-58.
Blackburn, S.; on induction: VII, 366-78.
Blank, A. A.; binocular space perception: VIII, 87-117.
Blanshard, B.; on causal relations: VII, 179-202.
Block, N. J.; type materialism: VIII, 327-42.
Block, Susan Carey; perception: V, 81-96.
Blumenfeld, David; AUTHOR: X, 339-44.
Blumenfeld, W.; geometry of visibles: VIII, 87-117.
Boehner, P.; supposition theory: VII, 13-23.
Bodies; identification of: X, 19-33.
Bohnert, Herbert; implication and commands: I, 345-60.
Bohr, Niels; quantum mechanics: IV, 93-103.
Bolyai, Janos; non-Euclidean geometry: VIII, 87-117.
Bolzano; truth: III, 111-28; IV, 15-24.
Bonaventure, S. A.; coercion: IV, 367-83.
Bond, E. J.; AUTHOR: II, 81-5.
Boole, G.; on algebra: IV, 189-99; intensions: I, 161-79.
Boolos, George; amounts: IX, 143-64; Russell's paradox: VIII, 289-94.
Bosanquet, B.; intension: I, 161-79.
Bourne, Randolph; the State: VI, 15-26.
Bouwsma, O. K.; *Philosophical Essays*: VII, 313-29.
Boyd, Richard N.; AUTHOR: VII, 1-12.
Bradley, F. H.; Bradley's regress: II, 341-58; IV, 209-23; VI, 27-40, 139-51; intension: I, 161-79; regress: X, 345-53.
Bradley, R. D.; AUTHOR: V, 253-71; analyticity of arithmetical propositions: V, 253-71; definitions in formal systems: V, 253-71; distributivity of contingency: III, 129-53; empiricist theory of mathematics: V, 253-71; interpretation of formal systems of arithmetic: V, 253-71; Machie on arithmetical propositions: V, 253-71.

Brainerd, Barron; AUTHOR: IV, 189-99.
Braithwaite, R. B.; fairness: VIII, 53-65; half-belief: II, 147-64; laws of nature: II, 315-40.
Brand, Myles; AUTHOR: II, 187-90.
Brandt, Richard; attitudes: II, 1-23; duties: IV, 45-55; identity of properties: VIII, 119-34; identity theory: VII, 299-307; rights: IV, 45-55.
Bratman, Michael; truth and demonstratives: VIII, 179-84.
Braude, Stephen E.; AUTHOR: V, 191-7.
Braybrooke, David; AUTHOR: IV, 56-7; VIII, 13-24.
Brentano, Franz; intentionality: II, 271-92; VII, 207-32; IX, 73-83; knowing who: I, 1-8.
Brentlinger, Ann Ferguson; AUTHOR: IV, 285-93.
Bridgeman, B.; neuropsychology: VIII, 327-42.
Brittan, Gordon G.; identification of properties: VIII, 119-34.
Broad, C. D.; counterfactuals: II, 315-40; Critical Study of *Leibniz*: X, 339-44; induction: IV, 135-52; objects of experience: II, 271-92; time: III, 1-16.
Brody, Baruch A.; AUTHOR: V, 139-55; VII, 351-65.
Bromberger, Sylvain; why-questions: VIII, 371-80.
Brown, John H.; Plato's *Euthyphro*: VI, 119-37.
Brown, N. O.; and promotion of epistemic goals: VII, 81-103.
Brown, Peter; amounts: IX, 143-64.
Browning, R. W.; C. I. Lewis' ethical theory: IX, 211-25.
Buck, Roger; transcendental arguments: VI, 274-81.
Bull, R. A.; tense-logic: II, 101-19.
Burdick, Howard; AUTHOR: VIII, 295-7.
Burge, Tyler; AUTHOR: VIII, 309-25; propositions and possible worlds: VIII, 211-31. Burnet, John essence and accident in Plato: VI, 119-37.

Cajori, F.; theory change: IX, 17-32.
Camp, Joseph L., Jr.; AUTHOR: V, 215-25; IX, 165-85; on essentialism: VII, 351-65; Plantinga on de dicto and de re necessity: V, 227-32; substitution quantifiers: IX, 187-92.
Campbell, C. A.; in libertarianism: VIII, 195-99.
Campbell, Norman; measurement: IX, 143-64.
Cantor, Georg; Cantor's theorem: III, 185-96, 413-25; VI, 153-64; Cantor's theorem and Russell's paradox: VI, 165-87; class of all classes: VI, 153-64; set theory: VIII, 1-12.
Cantor's Theorem; in second-order theories of predication: IX, 33-53; Skolem's paradox: VIII, 289-94.
Canty, J. T.; egocentric logic: II, 191-207.
Care, Norman; AUTHOR: X, 86-7.
Cargile, James: AUTHOR: I, 201-5; knowledge: IV, 405-9.

Carnap, Rudolf; amounts: IX, 143-64; attribute: III, 33-48; designation: II, 373-89; dispositional predicates: II, 315-40; erlebs: VIII, 295-97; extension and intension: I, 161-79, 207-09; VI, 85-95; on Frege's Sinn and Bedeutung: VI, 85-98; intensional isomorphism: V, 351-61; intensional logic: VII, 24-33; linguistic essentialism: VI, 224-39; logical content: VI, 335-59; lottery paradox: I, 409-11; meaning: II, 341-58; IV, 33-43; modal logic: III, 155-67; modality: VI, 224-39; necessitarian probability: V, 229-312; possible worlds: VII, 394-407; principle of tolerance: VI, 224-39; qualities: VIII, 295-97; quantification and existence: VI, 224-39; substitution *salva veritate*: VIII, 343-59; synonymy: II, 253-70; and theoretical terms: X, 261-82.

Carol, Lucy; amounts: IX, 143-64.

Carritt, E. F.; duties and rights: IV, 45-55.

Cartwright, Helen Morris; AUTHOR: VI, 369-77; IX, 143-64; on sortal predicates: VII, 268-282.

Cartwright, Richard L.; AUTHOR: I, 231-41; II, 229-46; amounts: IX, 143-64; classes and attributes: II, 303-14; on essentialism: VII, 351-65; existence: VI, 251-65; ontological commitment: VI, 378-87; ontology, reference, meaning: II, 25-46; propositions: II, 229-46, V, 107-38.

Castañeda, Hector-Neri; AUTHOR: I, 9-21; VII, 67-77; VIII, 381-98; actions: IV, 25-32; behavior: III, 49-60; VII, 313-29; consciousness: III, 49-60; VII, 313-29; deontic logic: I, 303-44; 381-400; III, 299-323, 373 -98; VII, 407-12; deontically viable utilitarianism: X, 121-44; egocentric logic: II, 191-207; events: IV, 25-32; 'I exist': VII, 282-98; indexicals: II, 341-58; V, 107-38, 290; "Intentionality, Minds, and Perception": III, 49-60; knowing who: II, 391-98; normal matrices: I, 161-79; 'now': II, 101-19; ought-sentences: VIII, 233-58; prescriptivism: VII, 56-67; propositions: V, 207-38; quantified epistemic contexts: I, 23-31; quasi-indicators: V, 207-38, 290; self-knowledge: I, 33-62; II, 191-207, 391-98; III, 399-408, V, 273-97; statements: V, 107-38; token reflexives: VII, 233-47; utilitarianism: III, 299-323; V, 373-84.

Categorical statements: II, 95-96; III, 103-08; IV, 1-12.

Categories; Sellars' ontology of: VII, 103-120; Wittgenstein's ontological: VII, 233-247.

Category; ___ mistake: III, 211-18; semantic ___: V, 27-37.

Caterus; criticism of Descartes: X, 3-15.

Caton, Charles; AUTHOR: V, 27-37; causation and perception: III, 49-60.

Causality; causal judgment: III, 61-72; and consequentialism: I, 81-90; formal: VI, 119-37; and forms: IV, 81-91; Hume: I, 255-82; knowledge and decision: II, 65-73; perception: III, 49-60; Plato: VI, 119-37; and states of affairs: V, 179-89; transitivity of: VI, 119-37.

Causation; agency theory of: IX, 55-72; as explanation: IX, 3-16; Hume on: IX, 269-93.

Cause; arguments from cause to effect: VIII, 273-82; noncausal connections: VIII, 41-52.

Causes: and action contexts: VII, 179-202, 299-307.

Causey, Robert: AUTHOR: 333-37; bridge laws: VIII, 119-34.

Certainty: V, 299-312.

Chandler, Hugh S.; AUTHOR: IV, 279-83; V, 313-19; constitutivity: V, 213-19; identity conditions for material objects: V, 313-19; indiscernability of identicals: V, 313-19; materialism: V, 313-19; reidentification: V, 313-19.

Change; Chappell on: VI, 369-77; of class members: II, 303-14; and essentialism: VII, 351-65; and events: IV, 25-32; of meaning: IV, 399-404; in properties: IV, 279-83; and theory comparison: IX, 17-32; in time: III, 1-16.

Chao, Yuen Ren; topic of a statement: V, 107-38.

Chappell, V. C.; on stuff and things: VI, 369-77.

Chateaubriand, Oswaldo; ontological commitment: II, 25-46.

Chihara, Charles: AUTHOR: II, 25-46; X, 305-11; ontic commitment: VIII, 289-94.

Chisholm, Roderick M.; AUTHOR: I, 1-8; IV, 15-24; V, 179-89; IX, 295-308; X, 33-4; abstract entities: IV, 15-24; contrary-to-duty imperatives: I, 303-44, 361-79; III, 373-98; Davidson: V, 179-89, 335-49; epistemic principles: III, 73-82; events: IV, 15-32; V, 179-89; 191-97, 335-49; VIII, 41-52; identity: I, 33-62; II, 87-89; intentionality: II, 271-97; III, 49-60; V, 179-89; VII, 152-63; IX, 73-83; law statements: V, 157-78; meaning analysis: I, 161-79; obligation: I, 345-60; paradigm-case argument: V, 3-14; possible worlds: I, 1-8, 33-62; II, 87-89; VII, 330-50, 351-65; preference: II, 253-70; properties of non-existent entities: VIII, 67-82; propositions: IV, 15-24; recurrence: IV, 15-24; V, 179-97; sense-data: VII, 120-38.

Chmielewski, Janusz; equivalence: V, 107-38

Choice; alternative actions: V, 237-52; axiom of: II, 165-75; III, 33-48, 111-28; IX, 33-53; divine: VIII, 211-31; and preferences: VIII, 13-24.

Chomsky, Noam; behaviorism: V, 81-96; ontological commitment: II, 25-46; VI, 378-87; on syntax: VII, 379-94; topic of a statement: V, 107-38.

Chow, K.; neuropsychology: VIII, 327-42.

Church, Alonzo; AUTHOR: VII, 24-33; VIII, 135-56; abbreviations: VI, 153-64; abstraction: I, 161-79; II, 373-89; Church's thesis: V, 81-96; concepts: II, 373-89; V, 273-97; decidability: III, 111-28; definability: III, 111-28; proper names: I, 207-09; second-order logic: II, 165-75; VI, 165-87; translation: VIII, 343-59; type theory: V, 273-97; use-mention: VII, 247-68; weak positive implication: I, 345-60.

Church, R. W.; Hume on relations: I, 255-82.

Clark, Romane; AUTHOR: IV, 311-35; VII, 45-56; adverbial modification: VI, 310-34; events: IV, 153-73; on logical form of action sentences: VII, 179-202; predicate modifiers: VI, 310-34.
Clark, Samuel; absolute space: I, 289-309; cosmological argument: III, 259-84; V, 49-61.
Classes; attributes: I, 231-41; change of members: II, 303-14; and forms: IV, 81-91; and individuals: IX, 33-53; in intension: II, 373-89; and properties: VI, 153-64; properties as: IX, 33-53; real and virtual: II, 373-89; and sets: VIII, 1-12.
Clendinnen, F. John; causation: IX, 3-16.
Cocchiarella, Nino B.; AUTHOR: II, 165-75; III, 33-48; VI, 165-87; IX, 33-53; Russell's paradox and reference to properties: VI, 153-87; second-order logic and existence attributes: II, 165-75; IV, 311-35; VI, 251-65; system I*: VI, 165-97; Systems T*(*): IX, 33-53; tense logic: III, 17-32.
Coercion: II, 47-64; IV, 367-83.
Cogito propositions: III, 197-209.
Cognitivism; and C. I. Lewis: IX, 211-25.
Cohen, Carl; AUTHOR: V, 63-79.
Cohen, Morris; amounts: IX, 143-64.
Cohen, Paul J.; axiom of choice: III, 111-28; set-theory: VIII, 289-94.
Cohen, S. Marc; on Plato's *Euthyphro*: VI, 119-37.
Coherence; explanatory: VII, 81-103; and reference: VIII, 25-40; sense-perception: I, 123-38.
Collingwood, R. G.; ontology of artworks: IX, 115-42.
Commands; rules: I, 63-79; II, 47-64.
Commitment: in deontic logic: I, 345-60, 361-79; ontic: VIII, 289-94; and speech-acts: V, 385-94; and utterances: IX, 193-204; SEE ALSO: Ontological Commitment.
Communities: and democracy: V, 63-79.
Community; imperfect: VIII, 295-97.
Comparatives; logical structure of: VI, 310-34.
Competition sets; and reasonable acceptance: VII, 81-103.
Completeness; substitution interpretation of quantifiers: II, 177-85.
Composition; of musical work: IX, 115-42.
Compossibility; of individuals in Leibniz: VI, 1-13; and possible worlds: VII, 331-50.
Comprehension: principle of: IX, 33-53; of propositional term: IX, 211-25.
Comprehension Axiom: VIII, 1-12.
Computers; and mechanistic psychological models: V, 81-96.
Conceivability; *vs.* possibility: IV, 175-88.
Conceiving; Reid: II, 271-92.
Concept; class concept: II, 373-89; coincidence: VIII, 381-98; coincidence *salva veritate*: VIII, 381-98; Frege on: VI, 251-65; Fregean: IX,

33-53; individual: II, 373-89; V, 273-97; infinitely complex: IX, 33-53; interpretation of: I, 161-79; Kant: VII, 207-32; Leibniz's: VIII, 381-98; and meaning: IX, 17-32; and objects: VIII, 259-72; psychological: III, 49-60.
Concern; of a statement: V, 207-38.
Conditional assertion; semantics for: IV, 1-12.
Conditionalization; principle of in probability theory: V, 299-312.
Conditionals; subjunctive: III, 95-101; SEE ALSO: Counterfactuals.
Confirmation; of explanations: II, 121-29; grue: II, 315-40; theory; IX, 319-28, 329-39.
Conjunction; constant: I, 255-82.
Connectives; logical: I, 303-44.
Connotation: II, 373-89.
Consciousness: III, 49-60; VII, 313-29.
Consequentialism; utilitarianism: I, 81-90.
Consistency; Leibniz: VIII, 381-98; maximal consistency of sets of individuals: VI, 1-13; practical: IX, 211-25.
Constituent; of facts: IV, 109-34; objective: II, 271-92.
Constitutivity; and identity: V, 313-19.
Constructs; theoretical: VII, 120-38.
Constants; non-logical or descriptive: IX, 33-53.
Consumption; technologies of: VIII, 13-24.
Containment; Leibniz: VIII, 381-98.
Content; of hypotheses: III, 285-97; and logical form: VIII, 157-64; and meaning relations: I, 161-79; III, 155-67; nominalism: I, 193-200; II, 399-403; III, 427-30; of representations: I, 97-121; of rights and duties: IV, 45-55; of thoughts and memories: IV, 59-70.
Contiguity; of ideas: I, 255-82.
Contingency; distributivity of: III, 129-53.
Contracts; relationship between citizen and state: VI, 15-26.
Contradiction; pragmatic: IX, 211-25.
Contraposition: V, 157-78.
Contraries: II, 95-96.
Contrafactuals; and intentionality: IX, 73-83.
Convention; truths by: VIII, 119-34.
Convention T; correct truth theory: VIII, 343-59; SEE ALSO: Tarski.
Conventionalism; Quine, Grünbaum, Duhem: I, 283-97; refutation of: VIII, 25-40; in semantics: IX, 353-74.
Cooperation; rational: VIII, 53-65.
Copleston, F. C.; cosmological argument: III, 259-84; on Duns Scotus: VIII, 273-82.
Copulation; VI, 139-51; modes of: III, 33-48.
Cornford, F. M.; sameness and difference in Plato: IV, 81-91.
Cornman, James W.; AUTHOR: VII, 120-38.
Cosmological argument: III, 259-84; V, 49-61.

Cosmology: closed universe: IV, 261-69.
Counterfactuals; about past, White's theory: X, 313-25; of causation: IX, 3-16; critical study of Lewis on: X, 355-61; and hypotheses: V, 157-78; interpretation of: V, 157-78; 291-92; and laws: II, 315-40; V, 273-97; II, 359-72; and noncausal connections: VIII, 41-52.
Counterpart Theory; VII, 330-50; and possible worlds: VIII, 211-31; X, 65-75.
Course-of-Values; Frege: VIII, 259-72.
Cowan, J. L.; omnipotence: I, 201-5.
Coyne, Anthony; interpreting theories: VIII, 289-94.
Craig, W.; lemma: IV, 337-48.
Craig's Theorem; and Ramsey-sentences: VII, 120-138.
Cramer; statistics: IV, 337-48.
Crawford, Patricia; transcendental arguments: V, 15-26.
Cresswell, M. J.; AUTHOR: IX, 193-204; modal logic: VII, 394-407; on time: IX, 193-204, 205-10.
Cropper, William H.; particle and wave mechanics: VIII, 119-34.
Cummins, Phillip; AUTHOR: IX, 55-72; II, 271-92.

Dalton, John; atomic theory: IX, 17-32.
Daniels, Charles B.; AUTHOR: VII, 233-47; and meaning: VII, 282-98.
Daniels, Norman; non-Euclidean geometry: VIII, 87-117.
Danielsson, Sven; preference: II, 253-70.
Danto, Arthur; actions: II, 187-90.
Darwinian Approach to History of Philosophy: VIII, 381-98.
Dauer, Francis W.; AUTHOR: IX, 269-93.
Daveney, T. V.; acts: IV, 367-83.
Davidson, Donald: AUTHOR: IV, 25-32; V, 335-49; actions: IV, 311-35; VII, 179-202, 299-307; VIII, 41-52; attitudes: II, 1-23; attributives: VI, 310-34; belief: VIII, 233-58; causation: IX, 3-16; events: V, 27-37; 179-89; VIII, 41-52; facts: V, 395-409; formal theory of value: VI, 97-117; intensional sentences: VIII, 165-77; learnable languages: VIII, 361-69; logical form: VIII, 157-64; meaning: VII, 379-94; VIII, 179-84; 309-25, 343-59; polyadicity: V, 27-37; reasons: III, 61-72; recurrence: V, 335-49; tense logic: II, 191-207; translation: VIII, 233-50; truth: V, 199-211, 395-409; VI, 85-95: VIII, 179-84, 309-25, 343-59.
Da Vinci, Leonardo; perspective: VIII, 87-117.
Davis, Martin; effective enumerability: III, 211-18.
Davison, John; AUTHOR: VII, 233-47.
Day, J. P.; distributivity of contingency: III, 129-53.
Death; IV, 73-80; penalty: VI, 15-26; and utilitarianism: X, 145-71.
De Broglie, Louis Victor; particle and wave phenomena: VIII, 119-34.
Deception; self: II, 147-64.
Decision; actions: II, 131-45; knowledge and causality: II, 65-73; making: VI, 97-117; rights: V, 63-79.

Declaratives; and ought statements: VII, 56-67.
Delian Ship; problem: X, 19-33.
De Dicto and De Re; II, 359-72; III, 235-58; V, 215-32; occurrences of terms: V, 273-97; SEE ALSO: Logic, modal.
Deduction; information and the a priori: IV, 135-52.
De Finetti, Bruno; probability: IV, 135-52, 337-48.
Definite Descriptions: I, 33-62, 207-09; II, 303-14, 359-84; III, 49-60; for Kant: VII, 207-32.
Definiteness; sense-perception: I, 123-38.
Definition; and abbreviation: VI, 153-64; by abstraction: VIII, 259-72; Aristotle: VI, 55-69; contextual: VI, 153-64; VIII, 259-72; and conventionalism: VIII, 25-40; denotational: VIII, 259-72; and equivalence: VI, 153-64; explicit: VIII, 259-72; as formal cause: VI, 119-37; in formal systems: V, 253-71; of identity: VI, 189-97; Plato's *Euthyphro*: VI, 119-37; in science: I, 283-97; VI, 55-69; substitutivity of definitional equivalents: VI, 119-37.
Democracy; rights and decisions in: V, 63-79.
Demonstratives; in Kant: VII, 207-32; and truth: VIII, 179-84.
De Morgan, A.; intensions: I, 161-79.
Demos, Raphael; negatives facts: V, 395-409; unconscious and self-deception: II, 147-64.
Dempster, A. P.; internal-valued probability functions: V, 299-312.
Denial; and negation: III, 211-18.
Dennett, D. C.; on consciousness: VII, 313-29.
Denotation; and contextual definition: VIII, 259-72; in music: VI, 41-53; and predication: IX, 33-53; and sense: I, 207-09; VII, 24-33; VIII, 135-56; of singular terms: VIII, 309-25; and substitution quantifiers: IX, 165-85, 187-92; and theory of reference: VIII, 343-59; SEE ALSO: Designation.
Deontic Logic; SEE: Logic, deontic.
Descartes, René; cogito: II, 191-207; III, 197-209; dualism: III, 49-60; epistemology: III, 73-82; mind-body problem: X, 3-15; ontological argument: VI, 251-65; sensation: IX, 55-72; sense-perception: I, 123-138; simple property theory of actuality: VIII, 211-31; thinking: III, 355-72; wax example: VI, 369-77.
Descriptions; of actions: V, 335-49; definite: IX, 165-85; and evaluation: IX, 3-16; and events: V, 179-89, 335-49; Frege's theory of: VIII, 135-56, 259-72; indefinite: IX, 165-85; of particulars: V, 139-55, 273-97; *vs.* representation: VI, 41-53; Russell's theory of: VIII, 67-82, 135-56, 259-72; and topic of statements: V, 107-38; and wants: IV, 367-83; of worlds: III, 373-98.
Designation; semantical relation: II, 373-89; SEE ALSO: Denotation.
Desire; and freedom of action: IV, 367-83; and self-deception: II, 147-64.
De Sitter; space: IV, 261-69.
Determinates; and species: I, 243-54; II, 315-40; III, 95-101; IV, 189-99.
Determinism; X, 313-25; and causation: IX, 3-16; and free will: III,

259-84; and future tense: VIII, 283-88; and libertarianism: VIII, 195-99; and noncausal connections: VIII, 41-52.
Deutsch, J. A.; psychological methodology: III, 83-93.
Deutscher; memory: IV, 59-70.
Dialectic; formal: IX, 193-204, 205-10.
Dicke, R. H.; Mach's principle: VI, 289-309.
Dictum; and proposition: V, 107-38.
Differentia; SEE: Species.
Digital; representation of numbers: V, 321-27.
Dilthey, Wilhelm; hermeneutics: IX, 85-102.
Diodorus of Chronos; master argument: VIII, 283-88.
Directives; in ethics: I, 139-66; and ought statements: VII, 56-67.
Disjunctions; value of: IX, 295-308.
Disjunctive Syllogism: VI,335-59.
Dispositions; counterfactual hypotheses and laws: V, 157-78; linguistic: III, 169-83; IV, 33-43; and predicates: II, 315-40; and preferences: VIII, 13-24; Fisk on: X, 345-53.
Distantiation; in hermeneutics: IX, 85-102.
Distribution; of necessity and contingency: III, 129-53; in traditional logic: III, 103-8.
Donnellan, Keith S.; X, 35-45; definite descriptions: I, 33-62; theory of reference: IX, 17-32; truth and singular terms: VIII, 309-25.
Doxastic Logic; See: Logic, epistemic.
Drange, Theodore; category-mistake: III, 211-18.
Dreams; perception: I, 123-38; pretending to be awake: I, 299-301; II, 91-94.
Dretske, Fred I.; AUTHOR: 34-44; change of properties: IV, 279-83; *Seeing and Knowing*: VII, 313-29.
Dreyfus, Hubert L.; AUTHOR: V, 81-96.
Dryer, D. P.; on Kant: VII, 207-232.
Dualism; III, 49-60; Cartesian: X, 3-15.
Ducasse, C. J.; causal judgments: III, 61-72; unchanges: VIII, 41-52.
Duhem, Pierre; conventionalism: I, 283-97.
Dulany, D. E.; VII, 152-63.
Dummett, Michael; conditionals: IV, 1-12; negation: III, 211-18; truth-functionality of operators: VI, 1-13.
Du Mond, J. W. M.; theory change: IX, 17-32.
Dunn, J. Michael; AUTHOR: II, 177-85; IV, 13; first-degree entailment: VI, 335-59; substitutional quantification: II, 177-85; IV, 271-77; VI, 224-50; VIII, 361-69.
Duns Scotus, John; on Anselm: VIII, 273-82; on libertarianism: VIII, 195-99.
Duration; of the present: V, 39-47.
Durrant, Michael; AUTHOR: 282-98.
Dürer, Albrecht; perspective: VIII, 87-117.

Duties; prima facie: I, 303-44; and rights: IV, 45-57; SEE ALSO: Imperatives (contrary-to-duty).
Dworkin, Gerald; AUTHOR: IV, 367-83.

Earle, William; AUTHOR: X, 47.
Earman, John; AUTHOR: IV, 261-9; absolute space: VI, 266-73, 289-309; Newtonian mechanics and special relativity: IX, 17-32; why-questions: VIII, 371-80.
Eaton, Marcia; AUTHOR: X, 62-3.
Eberle, Rolf A.; AUTHOR: II, 399-403; III, 431-4.
Economics; events and causation: IX, 3-16; and preferences: VIII, 13-24.
Egocentric Logic: II, 191-207; III, 17-32.
Einstein, Albert: absolute space: VI, 289-309; laws of nature: II, 315-40; physics and reality: I, 283-97; simultaneity: VIII, 25-40; time and space: III, 17-32; IV, 261-69.
Ellis, Brian; measurement: IX, 143-64.
Emotion: II, 1-23; and rationality: IX, 211-25.
Emotivism: II, 1-23; and conventionalism: VIII, 25-40; and practical reasoning: VII, 56-67.
Empirical; mathematical propositions: V, 253-71.
Empiricus, Sextus; perception: III, 73-82.
Enç, Berent; X, 261-82.
Ends; and Behavior: IX, 211-25; utilitarianism: I, 81-90.
Energy; mean kinetic: VIII, 119-34.
Enforceability; of laws: II, 47-64.
Ennis, Robert; Causation: IX, 3-16.
Entailment; Leibniz: VIII, 381-98; and obligation: I, 345-60; semantics of first-degree: VI, 335-59; and support: III, 345-49; theory of meaning: VIII, 343-59; SEE ALSO: Anderson, Belnap.
Entities; concrete: IX, 165-85; existent: IX, 165-85; nonexistent: VIII, 67-82; real: VIII, 87-117; SEE ALSO: Abstract Entities; Object.
Entrenchment; of predicates: II, 315-40, simplicity and: VII, 366-78.
Epistemic Logic: SEE: Logic, epistemic.
Epistemology; Descartes's argument for mind-body distinctness: X, 3-15; C. I. Lewis: IX, 407-20; and C. I. Lewis' ethical theory: IX, 211-25; and problem of other minds: VII, 34-44; 313-29; SEE ALSO: Knowledge; Sense Perception.
Equality; and democracy: V, 63-79; and moral syllogism: IX, 211-25; quantitative: IX, 143-64; and rational cooperation: VIII, 53-65.
Equivalence; and coincidence: VIII, 381-98; and identity: V, 107-38; semantical: VIII, 283-88.
Erlebs; and qualities: VIII, 295-97.
Essentialism; VII, 351-65; Aristotelian: VI, 224-39; and conventionalism: VIII, 25-40; and counterfactuals: V, 157-78; linguistic: VI, 224-39; in modal logic: I, 91-96, 181-91; III, 155-67; VI, 224-39.

Ethics; VII, 56-67, 67-77; aggregation problems in: X, 221-44; analytic: I, 139-60; emotivism: VIII, 25-40; foundations of: IX, 211-25; C. I. Lewis on: IX, 211-25; normative: I, 139-60; SEE ALSO: Consequentialism; Facts; Legal Philosophy; Naturalism; Norms; Utilitarianism.
Evaluation; as pragmatic concept: IX, 3-16.
Evans-Pritchard, E. E.; political systems: VI, 15-26.
Events; absolute space: VI, 289-309; and actions: II, 187-90; IV, 311-35; VII, 179-202; causes: III, 61-72; composite: VIII, 41-52; dependencies between: VIII, 41-52; in different possible worlds: VIII, 211-31; ephemeral: V, 335-49; eternal: V, 335-49; identity of: VIII, 41-52; and knowledge of other minds; VIII, 233-58; and oughts: VIII, 233-58; as particulars: IV, 25-32; V, 179-89, 335-49; and performances: IX, 115-42; and propositions: IV, 15-24, 311-35; V, 179-89; recurrence of: V, 179-89, 191-97, 335-49; as states of affairs: V, 179-89, 335-49; Strawson on ontologies of: V, 139-55; thoughts: III, 355-72; and time: IV, 153-73; IX, 205-10.
Evidence; acceptance: III, 285-97; VII, 81-103; certainty: V, 299-312; correction of: V, 299-312; epistemology: III, 73-82; 227-31; VI, 359-68; for laws of nature: II, 315-40; probability: V, 299-312; scientific: VII, 1-12.
Evil; Plantinga on: III, 259-84.
Exceptions; to rules: I, 63-79.
Exemplification; I, 413-19; IV, 81-91, 209-23, 285-93; VI, 139-51; of art work: IX, 115-42; Bergmann's ontology: IV, 109-34; and kinds: IX, 165-85; and predication: VI, 153-87.
Existence; and actuality: VIII, 211-31; of artwork: IX, 115-42; death: IV, 73-80; fictional: X, 49-64; Frege: VI, 251-65; of God: VIII, 273-82; Harmon and Quine: IV, 201-4; of an idea: IX, 55-72; and intentionality: IX, 73-83, 165-85; Leibniz: VIII, 381-98; and logic of sense and denotation: VIII, 135-56; Meinong: VI, 224-39; as mode of being: VIII, 67-82; necessary existence and transcendental arguments: V, 3-14; and perception: IX, 55-72; predicate: I, 33-62; III, 33-48, 259-84; IV, 209-23; VI, 224-39, 251-65; property of individuals: V, 273-97; quantification: III, 49-60; VI, 224-39; Russell: VI, 224-39; second-order logic: II, 165-75; III, 33-48; VI, 251-65; as a second-order property: VI, 251-65; and self-identity: VIII, 209-25; statements and their topics: V, 107-38; transcendental reality: II, 271-92.
Existent; basic: IV, 109-34, 209-23, 279-83.
Existential Inconsistency: III, 197-209.
Existential Presuppositions; in Aristotelian science: VI, 55-69.
Expectation; warranted: IX, 211-25.
Experience; Kant: II, 271-92; Montague: V, 273-97; and reason: VII, 56-67.
Explanation; for Aristotle: VI, 55-69; and belief: VI, 85-95; causation as: IX, 3-16; causes of actions: III, 49-60; deductive-nomological:

VIII, 371-80; deductive-nomological model of: IX, 187-92; evaluations of: II, 121-29; and knowledge: I, 401-11; pragmatics of: III, 61-72; psychological: III, 83-93; V, 81-96; and reductionism: VIII, 119-34; significant: VI, 289-309; teleological: VI, 85-95; and truth: V, 199-211.

Explication; II, 25-46; and hermeneutics: IX, 85-102.

Expressing; linguistic act: II, 1-23.

Expressions; cognitive: IX, 211-25; denoting: IX, 165-85; incomplete: VIII, 179-84.

Extension; Berkeley's analysis of: IX, 55-72; of a concept: IX, 33-53; for Frege: VIII, 259-72; and intensions: I, 97-121; V, 273-97; of predicates: VIII, 1-12; principle of extensionality: II, 303-14, 341-58; relations of: I, 161-179; theory of reference: VIII, 343-59; SEE ALSO: Classes.

Extensionality; principle of: IX, 33-53, 73-83.

Facts; atomic: V, 395-409; and bare particulars: IV, 109-34; constituents of: V, 411-17; in ethics: I, 139-60; general: V, 395-409; identity conditions for: IV, 153-73; and logical form: III, 325-43; IV, 311-35; negative: V, 395-409; VI, 27-40; as ontological category: VII, 233-47; picture theory of: IV, 209-23; possible: V, 411-17; and propositions: V, 411-17; Russell: V, 395-417; VI, 27-40; and subsistence: VIII, 67-82; and states of affairs: IV, 15-24; IX, 429-46; Wittgenstein: II, 341-58; IV, 209-23; VII, 233-47.

Fain, Haskell; AUTHOR: VII, 15-26.

Fairness; and rational cooperation: VIII, 53-65.

Falk; practical nature of ethics: I, 139-60.

Fallibilism; C. I. Lewis: VI, 359-68; and probability theory: V, 299-312.

Falsehood; in Plato's *Sophist*: IV, 81-91; Russell on: VI, 27-40.

Farber, M.; on Husserl: I, 161-79.

Feelings; holographic model of: VIII, 327-42.

Feigl, Herbert; identity thesis: VIII, 327-42; on inter-theoretic considerations: VII, 1-12.

Feinberg, J.; rights and obligations: IV, 45-55.

Feldman, Fred; AUTHOR: V, 268-82; VIII, 185-94; counterparts: VII, 330-50, 351-65; on Leibniz: VIII, 381-98; relative identity: IV, 241-60.

Feyerabend, Paul K.; radical meaning variance: IV, 399-404; and theoretical terms: X, 261-82; theory comparison: IX, 17-32.

Feynman, Richard P.; causation and relativity: IX, 3-16; particle and wave mechanics: VIII, 119-34.

Fiction; and reality: IX, 85-102; representation in: X, 49-61.

Field, Hartry; AUTHOR: IX, 375-405; theory change: IX, 17-32.

Findlay, John N.; objects in Meinong: VIII, 67-82; object of worship: III, 259-84; time: III, 17-32; V, 39-47.

Fine, Arthur: AUTHOR: IV, 103-4; IX, 17-32; scientific change: IV, 399-404; Skolem's paradox: III, 185-96.
Fine, Kit; egocentric logic: II, 191-207.
Finitude; nominalistic calculi: II, 405-10; III, 413-25; of space and time: IV, 261-69.
First-Order Logic; SEE: Logic, first-order.
Firth, Roderick; causation: III, 49-60; evidence: III, 73-82; meaning: IV, 33-43.
Fisher, Mark; contrary-to-duty imperatives: I, 361-79; on obligation: I, 345-60.
Fisk, Milton; AUTHOR: VI, 139-51; critical study of *Nature and Necessity*: X, 345-53; relevant implication: VI, 146-49.
Fitch, Frederick B.; modal set-theory: V, 157-78; self-reference: IV, 405-09.
Flew, Anthony; causation: IX, 3-16; free will defense: III, 259-84.
Fodor, Jerry A.; functionalism: III, 83-93; psychological explanation: V, 81-96; type materialism: VIII, 327-42.
Fogelin, R.; *Evidence and Meaning*: VII, 56-67.
Follesdal, Dagfinn; Hintikka's semantics of quantification: VI, 224-39.
Foot, P.; "Goodness and Choice": VII, 67-77.
Forgie, J. William; AUTHOR: VI, 251-65.
Form, logical; SEE: Logical Form.
Formalism; Frege's rejection of: VIII, 259-72; philosophy of mathematics: III, 185-96.
Forms; in Bergmann's ontology: IV, 109-34; Plato's theory of: IV, 81-91.
Fordes, M.; political systems: VI, 15-26.
Foundations; of relational properties: VI, 139-51.
Foundationalism; epistemological: IX, 407-20.
Fraenkel, A. A.; replacement axiom: IX, 33-53.
Frankena, W. K.; ethical propositions and characteristics: VII, 67-77; C. I. Lewis' ethical theory: IX, 211-25; morality: II, 1-23.
Frankfurt, Harry; cogito propositions: III, 197-209.
Fraassen, B. C. van; SEE: van Fraassen.
Frechét, M.; metric space: IV, 399-404.
Freedom; and action: IV, 367-83.
Free Logic: III, 155-67, 197-209; SEE ALSO: Logic, free.
Free Will; defense: III, 259-84; and omnipotence: II, 293-301.
Frege, Gottlob; concepts: VI, 251-65; contextual definition: VIII, 259-72; denotation: I, 97-121, 207-09; II, 373-89; V, 273-97; VI, 85-95; existence: VI, 251-65; extensions: VIII, 1-12, 157-64; formal systems: III, 185-96; hermeneutics: IX, 85-102; indicator words: VIII, 179-84; intensions: I, 161-79; V, 273-97; VIII, 157-64; mathematical propositions: V, 253-71; meaning: VII, 24-33; VIII, 157-64, 343-59; mode of presentation: II, 373-89; names: IV, 209-23; ontological argument: VI, 251-65; ontology of: VI, 165-87; IX, 33-53; quantification: IV, 1-12; sense: I, 97-121, 207-9; II,

373-89; V, 273-97; VI, 85-95; sentences: IV, 209-23; sets: VIII, 1-12; singular terms: VIII, 309-25; on sortal predicates: VII, 24-33, 268-82; VIII, 135-56; synonymy and samesaying: X, 283-304; thought: III, 355-72; truth: II, 373-89; IV, 15-24; unsaturated entities: VIII, 381-98; IX, 33-53; and Wittgenstein: II, 341-58; VII, 233-47.

Frege's Basic Law: IX: 33-53.

Frei, Henri: topic of a statement: V, 107-38.

Fried, Charles; moral causation: IV, 367-83.

Friedman, Kenneth; AUTHOR: VII, 366-78.

Friedman, Michael; AUTHOR: IX, 353-74.

Function; for Frege: VI, 251-65; Fregean view of: VIII, 309-25; meaning. VIII, 157-64.

Functionalism: III, 83-93.

Furberg, Matz; locutionary acts: VI, 201-24.

Furth, Montgomery; denotation: VI, 165-87; on sortal predicate: VII, 268-82.

Fusion; of a set: IX, 143-64.

Gabor, D.; holograms: VIII, 327-42.

Gadamer, H. G.; phenomenology: IX, 85-102.

Galambos, R.; neuropsychology: VIII, 327-42.

Galanter, Eugene; behavior: V, 81-96.

Gale, Richard M.; AUTHOR: V, 39-47.

Galileo; qualities: IX, 55-72.

Gallin, Daniel; AUTHOR: III, 111-28.

Games; and rule-governed behavior: I, 345-60; SEE ALSO: Wittgenstein.

Game Theory; and rational cooperation: VII, 53-65.

Garner, Richard T.; AUTHOR: II, 209-227; VI, 201-24.

Garson, James; topological logic: IV, 189-99; VII, 330-50.

Garnet, N.; on Wittgenstein: VII, 313-29.

Gasking, Douglas; causal asymmetry: VIII, 41-52; causation: IX, 3-16.

Gauthier, David; AUTHOR: VIII, 53-65.

Geach, Peter T.; Cambridge change: VIII, 41-52; distribution in traditional logic: III, 103-8; on Frege: IX, 33-53; intensional contexts: V, 107-38; on judgments: VII, 45-56; quantifiers: II, 177-85; IV, 12; on quantification: IX, 165-85; relative identity: IV, 241-60; on scope of quantifiers: VII, 13-23; on sortal predicates: VII, 268-82; substitutivity in Plato's *Euthyphro*: VI, 119-37; thought: III, 169-83; time: IV, 153-73, 311-35; truth: IV, 385-97.

Generality; Abélard: V, 273-97; and facts: III, 325-43; Hume: I, 255-82; and logical laws: VII, 247-268; in Wittgenstein: VII, 233-247.

Generalization; accidental: II, 315-40; essentially autobiographical: VII, 120-38; existential: I, 1-8, 23-62; III, 49-60; IV, 311-35; VIII, 165-77, 309-25; inductive: VI, 359-68; and laws: V, 157-78; universal: V, 157-78; SEE ALSO: Existence.

Genus; SEE: Species.
Geometry; I, 283-97; V, 253-71; Grünbaum: VIII, 25-40; Kant: II, 271-92; non-Euclidean: VIII, 87-117; Reichenbach: VIII, 25-40; of visibles: VIII, 87-117.
Geroch, R.; space-time: IV, 261-69.
Gestalt Theory; and neuropsychology: VIII, 327-42.
Gettier, Edmund; III, 49-60; justified true belief: III, 227-31.
Giannoni, Carlo; AUTHOR: I, 283-97.
Gibbard, Allan; AUTHOR: X, 77-86.
Giedymin, J.; on induction: VII, 366-78.
Gilson, Etienne; cosmological argument: III, 259-84.
Ginet, Carl; AUTHOR: IV, 349-65; causation and decision: II, 65-73.
Ginsberg, Mitchell; AUTHOR: V, 107-38.
Gleason, A. M.; theorem: IV, 93-103.
Gleitman; language learning: IV, 33-43.
Glymour, Clark; ought-sentences: VIII, 233-58.
Goble, Lou; AUTHOR: VIII, 407-12; corrigenda to "Opacity and the Ought-to-Be": VIII, 200.
God; belief and knowledge: VIII, 273-82; existence of: IX, 55-72; and other minds: III, 259-84; SEE ALSO: Cosmological Argument; Ontological Argument.
Gödel, Kurt; consistency: VI, 224-39; existence of classes: VI, 153-64; set theory: VIII, 1-12; IX, 33-53; theorems: III, 185-96, 413-25; time travel: IV, 261-69.
Gödel's Theorem; and set theory: VIII, 289-94.
Goenner, H.; Mach's principle: VI, 289-309.
Goldman, Alvin I.; actions: VIII, 41-52; causal theory of knowledge: VII, 1-12; descriptions: V, 107-38; explanation: I, 401-11; knowledge: I, 401-11; VII, 1-12.
Good; logical structure of: VI, 310-34.
Good, I. J.; interval-valued probability functions: V, 299-312.
Goodman, Nelson; analog and digital representation of numbers: V, 321-27; atomistic mereology: IX, 143-64; on *Aufbau*: V, 3-14; VIII, 295-97; calculus of individuals: IX, 309-18; classes: II, 229-46; cotenability: I, 303-44; counterfactuals: II, 359-72; V, 273-97; exemplification: IV, 285-93; *Fact, Fiction, and Forecast* (Ch. 2): VII, 394-407; imperfect community: VIII, 295-97; impredicative definitions: II, 165-75; individuals and attributives: VI, 310-34; nominalism: I, 193-200; II, 25-46, 165-75, 399-410; III, 413-34; IV, 225-40; parts: IV, 279-83; positionality: II, 315-40; possible objects: VIII, 165-77; possible worlds: VIII, 211-31; predicates: IV, 285-93; VI, 310-34; projection and ontology: X, 345-53; properties: IV, 279-83, 285-93; reference: IV, 399-404; on representation in art: VI, 41-53; sense: IV, 399-404; similarity: VII, 330-50; sums of constituents: IV, 109-34; theory of projection: IX, 319-28, 329-39; topic of a statement: V, 107-38.

Goodness; and conformity: II, 81-85; Hare: VI, 119-37; Moore: VI, 119-37; Plato: VI, 119-37.
Goods; and preferences: VIII, 13-24.
Gorovitz, Samuel; AUTHOR: III, 61-72.
Gottlieb, Dale; AUTHOR: IX, 319-28; theory of projection: IX, 329-39.
Government; central government and statehood; VI, 15-26; and democracy: V, 63-79; legitimacy of: VI, 15-26.
Gram, Moltke S.; AUTHOR: V, 15-26; Kant: VI, 274-81; transcendental arguments: VI, 274-81.
Grandy, Richard E.; AUTHOR: VIII, 157-64; description theory: VIII, 309-25.
Grattan-Guiness, I.; Cantor and Jourdain: VIII, 1-12.
Gray, Phillip; interpreting theories: VIII, 289-94.
Grice, H. P.; meaning: IV, 295-302; perception: II, 271-92; reference to individuals: X, 35-45; truth and singular terms: VIII, 309-25.
Griffin, James; utilitarianism: I, 81-90.
Grossman, Reinhardt; AUTHOR: VI, 153-64; VIII, 67-82; critical study of *Ontological Reduction*: IX, 429-46.
Grover, Dorothy; quantification: IX, 165-85.
Grue; II, 315-40; III, 409-12; VI, 153-64; VII, 366-78; Goodman on: VII, 366-78; paradox: IX, 319-28, 329-39.
Grünbaum, Adolf; conventionalism: I, 283-97; VIII, 25-40; geometry: VIII, 25-40; geometry of visibles: VIII, 87-117; libertarianism: VIII, 195-99.
Grunstra, B.; on entrenchment: VII, 366-78.

Haack, R. J.; AUTHOR: V, 351-61.
Hacking, Ian; statistical inference: I, 401-11; III, 345-49; subjective probability: IV, 135-52.
Haecceity: I, 33-62.
Hahn, Hans; deduction and information: IV, 135-52.
Hailperin, Theodore; completeness proof: VIII, 135-56; quantification and empty domains: VII, 24-33; truth and singular terms: VIII, 309-25.
Halbasch, Keith; AUTHOR: V, 395-409.
Hall, E. W.; *Our Knowledge of Fact and Value*: VII, 45-56.
Hall, John C.; Plato's *Euthyphro*: VI, 119-37.
Halldén, Sören; preference: II, 253-70.
Halmos, Paul; measurability: IX, 143-64.
Hamblin, C. L.; AUTHOR: IX, 205-10; on time: IX, 193-204, 205-10.
Hamlyn, D. W.; thought: III, 355-72.
Hanson, Norwood Russell; distributivity of contingency: III, 129-53; theory comparison: IX, 17-32.
Hansson, Bengt; AUTHOR: III, 373-98; preference: II, 253-70.
Hardio, W. F. R.; acts: IV, 367-83.
Hare, R. M.; 'better': II, 75-79; ethical theory: IX, 211-25; goodness and conformity: II, 81-85; naturalistic fallacy: VI, 119-37; and ought

judgments: VII, 67-77; phrastics: VI, 201-24; practical nature of ethics: I, 139-60; and prescriptivism: VII, 56-67.
Harman, Gilbert; AUTHOR: I, 401-11; IV, 33-43; V, 213-4; Binkley: V, 213-14; VI, 224-39; existence: IV, 201-4; grammar: VIII, 157-64; language learning: IV, 33-43; logic: VIII, 157-64; meaning: IV, 33-43; mental states: IV, 33-43; ought-sentences: VIII, 233-56; probability: I, 401-11; Quine: IV, 33-43, 201-4; quotation: V, 213-14; VI, 224-39; substitutional quantification: V, 213-14; VI, 224-39.
Harrison, Andrew; ontology of art works: IX, 115-42.
Harrod, R. H.; memory: IV, 59-70.
Harsanyi, John; rational cooperation: VIII, 53-65.
Hart, H. L. A.; responsibility: II, 131-45; rights and obligations: IV, 45-55; rules: I, 63-79; II, 47-64.
Hartshorne, Charles; actual and possible worlds: VIII, 211-31.
Hausman, Alan; AUTHOR: I, 255-82.
Hay, W. H.; abstract ideas: IX, 55-72.
He (Himself); SEE: Indexicals.
Hebb, D. O.; neuropsychology of perception: VIII, 327-42.
Hedman, Carl G.; AUTHOR: VII, 299-307.
Hegel, G. W. F.; civil society: VIII, 53-65; the state: VI, 15-26; substance of morals: IX, 85-102.
Heidegger, Martin; phenomenology: V, 81-96; IX, 85-102.
Heidelberger, Herbert; AUTHOR: III, 73-82.
Hellman, Geoffrey; AUTHOR: III, 413-25.
Helmholtz; non-Euclidean geometry: VIII, 87-117.
Hempel, C. G.; connecting principles: VIII, 119-34; deduction: IV, 135-52; explanation: II, 121-29; III, 61-72; V, 199-211; VIII, 371-80; Hempel's paradox: II, 315-40; III, 373-98; IV, 1-12; holism: I, 283-97; "if . . . then . . . probably . . ." -sentences: VIII, 233-58; information: IV, 135-52; meaning: IV, 33-43; scientific theories: IX, 17-32; statistical inference: I, 401-11; utility: VII, 81-103.
Hendel, Charles W.; Hume on relations: I, 255-82.
Hendoy, Herbert E.; objective analytic intensions: II, 391-8.
Henkin, Leon; completeness proof: VIII, 135-56; logical consequence: II, 177-85.
Henson, Richard; death and utilitarianism: X, 145-71.
Henze, Donald F.; private-language argument: V, 3-14; VII, 313-29.
Hepburn, Ronald W.; cosmological argument: V, 49-61.
Hermeneutics; and phenomenology: IX, 85-102.
Hesse, M.; on grue: VII, 366-78.
Heterologicality; and paradox: X, 305-11.
Hicks, J. R.; consumer's choices: VIII, 13-24.
Hilbert, David; contextual definition of 'sum': VI, 153-64; identity: VIII, 309-25; names of natural numbers: V, 199-211; space: IV, 93-103.
Hilpinen, Risto; on definition of utility: VII, 81-103; inductive logic: I, 401-11.
Hinman, Peter G.; truth: III, 111-28.

Hintikka, Jaakko; AUTHOR: I, 33-62; IV, 135-52; VI: 55-69; 274-81; Aristotle on the theoretical structure of science: VI, 55-69; Aristotle's theory of the syllogism: VI, 55-69; cogito propositions: III, 197-209; on definition of utility: VII, 81-103; deontic logic; I, 361-79; epistemic contexts: I, 1-8; II, 391-98; III, 399-408; VI, 224-39; epistemic logic: I, 9-21, 33-62; II, 359-72, 391-98; III, 95-101, 399-408; VI, 335-59; existence: III, 33-48; existential generalization: I, 1-8; II, 391-98; III, 399-408; VI, 224-39; Gram on transcendental arguments: VI, 274-81; individuals: I, 33-62; II, 87-89, 391-98; Kant on perception: VI, 274-81; Kant on synthetic a priori: VI, 274-81; Kant on transcendental arguments: VI, 274-81; possibility and compossibility: VI, 1-13; possible-world semantics: VI, 240-50; 335-59; VIII, 343-59; possible worlds: I, 33-62; II, 87-89, 391-98; VII, 330-50; propositional attitudes: VIII, 157-64; on quantification and reference in modal contexts: VI, 224-50; referential opacity: I, 23-31; II, 391-98; VI, 224-39; semantics for epistemic and perceptual concepts: VII, 207-232; semantics for modal logic: V, 273-97; VI, 240-50; substitutivity: VI, 224-39; *Words and Objections*: VIII, 165-77.

Hispanus, Petrus; essentialism: I, 35-62; knowing who: I, 1-8.

History of Philosophy; approaches to: VIII, 381-98; Athenian *vs.* Darwinian: VIII, 381-98.

Hobbes, Thomas; actions: II, 131-45; IV, 367-83; demonstrative knowledge: VI, 274-81; law: I, 63-79; II, 47-64; memory and imagination: I, 123-38.

Hochberg, Herbert; AUTHOR: I, 413-19; III, 325-43.

Hockett, Charles; topic of a statement: V, 107-38.

Hodges, Wilfrid; AUTHOR: II, 405-10; atomic calculus of individuals: III, 413-25.

Hohfeld, W. N.; duties and rights: IV, 45-55.

Holborow, Les; AUTHOR: V, 385-94.

Holdcroft, D.; on illocutionary acts: VII, 282-98.

Holism; in science: I, 283-97.

Holograms; and psychological states: VIII, 327-42.

Hopkins, James; visual geometry: VIII, 87-117.

Hospers, John; duties and rights: IV, 45-55.

Howard, V. A.; AUTHOR: VI, 41-53.

Howell, Robert; AUTHOR: 207-32.

Hubel, D.; neuropsychology: VIII, 327-42.

Hughes, G.; modal logic: VII, 394-407.

Hullett, J.; on grue: VII, 366-78.

Humboldt; language learning: IV, 33-43.

Hume, David; causation: IX, 3-16, 269-93; cosmological argument: V, 49-61; empiricist psychology: V, 81-96; impressions and ideas: I, 123-38; II, 271-92; 341-58; memory: IV, 59-70; principle: VII, 67-77; relations: I, 255-82; scepticism: V, 3-14.

Husserl, Edmund; intensions: I, 161-79; iterated modalities: III, 155-67;

phenomenology: IX, 85-102; theory of intentionality: IX, 73-83; truth: IV, 15-24.
Huyghens, C.; absolute space: VI, 289-309.
Hypothesis; analytical: VIII, 25-40; certainty: V, 299-312; counterfactual: V, 157-78.

Idealism; Berkeleyan: IX, 55-72; Husserlian: IX, 85-102; Kant's refutation of: V, 15-26.
Ideas; I, 97-121; abstract: IX, 55-72; Berkeley: II, 271-92; Berkeley's ideas of sense: IX, 55-72; Duhem: I, 283-97; Hume: I, 255-82; perception: II, 271-92.
Ideality; transcendental: II, 271-92.
Identicals; substitutivity of: VI, 119-37; SEE ALSO Identity; Intensionality.
Identification; of bodies: X, 19-33; criteria of: V, 271-97; SEE ALSO: Identity.
Identity; Bergmann: IV, 109-34; of bodies: X, 19-33; and change: II, 303-14; IV, 279-83; classes and attributes: I, 231-41; II, 303-14; in Cocchiarella's system T*: VI, 165-97; and change: II, 303-14; IV, 279-83; and constitutivity: V, 313-19; contingent: II, 303-14; and correlation: VIII, 119-34; definition of: VIII, 381-98; and denotation: VIII, 259-72; and descriptions: V, 107-55; in different possible worlds: VIII, 211-31; of events: IV, 25-32, 153-73; in formal theories: IV, 242-50; of indiscernibles: IV, 241-60; VI, 165-97; and indiscernability: VI, 139-51; individuals: I, 193-200; II, 399-403; III, 17-32; IV, 279-83; individuation of particulars: IV, 118-21, 279-83; Leibniz: III, 17-32; material objects: V, 148-55, 313-19; of particulars: V, 139-55; relative: IV, 241-60; second-order logic: II, 165-75; VI, 165-97; self: VIII, 309-25; of states of affairs: IV, 15-24; substitutivity of: VIII, 157-64; as syncategorematic: VI, 165-97; theory (mind/body): III, 83-93, 169-83; IV, 15-24; through possible worlds: I, 1-8, 33-62; II, 87-89, 359-72; III, 95-101; trans-world: VII, 330-50, 351-65; SEE ALSO: Indiscernability of Identicals.
Identity Thesis; and neuropsychology: VIII, 327-42.
Ideologies; critique of: IX, 85-102.
Illocutionary Acts; V, 27-37; VI, 201-23; J. L. Austin: I, 215-29; II, 209-27; conditions for: V, 385-94; emotivism: II, 1-23; linguistic disposition: III, 169-83; and meaning: VII, 282-298.
Illusions; SEE: Dreams.
Image; memory: IV, 58-71.
Immaterialism; Berkeley's: IX, 55-72.
Immortality; and death: IV, 73-80.
Imperative; categorical: IX, 211-25; of consistency: IX, 211-25; contrary-to-duty: I, 303-44, 361-400; III, 299-323; hypothetical: VII, 67-77; moral: IX, 211-25; prudential: IX, 211-25; rational: IX, 211-25; technical: IX, 211-25; SEE ALSO: Paradox (Good Samaritan).

Implication; in deontic logic: I, 345-60, 381-400; distributivity of contingency: III, 129-53; Leibniz: VIII, 381-98; nomic: II, 315-40; paradox-free: VI, 335-59; relevant: VI, 146-49, 139-51, 335-59; strict: VI, 335-59; SEE ALSO: Entailment.
Impossible; wanting the: VIII, 165-77.
Impredicative; attribute: II, 165-75.
Impressions; Hume: I, 255-82; II, 271-92.
Incompatibility; of individuals: VI, 1-13.
Incorrigibility; and cogito propositions: III, 197-209.
Indeterminacy; and analytical hypotheses: V, 351-61; of reference: VI, 310-34.
Indexical Analysis of 'Actual': X, 65-75.
Indexical Expressions; and theory of actuality: VIII, 211-31.
Indexicals; 'actual': IV, 175-88; Wittgenstein: II, 341-58; SEE ALSO: Quasi-Indicators, Pronouns.
Indicator Words; and non-external sentences: VIII, 179-84.
Indicatives; logic of: IX, 211-25.
Indirect Speech; and referential opacity: V, 351-61.
Indiscernibility; and coextensiveness of properties in T*: VI, 165-97; of identicals: I, 1-8, 23-62; II, 165-75, 391-98; III, 235-58, 399-408; IV, 241-60; V, 148-55, 313-19; VIII, 381-98; and identity: VI, 139-51; VIII, 381-98; by predicates: VIII, 309-25; of predicates and individuals: IX, 33-53; SEE ALSO: Identity (of Indiscernibles).
Individuals; actual and possible: VII, 330-50; calculus of: IV, 225-40; VIII, 165-77; IX, 143-64, 309-18; and change: II, 303-14; concepts: II, 373-89; and denotation: IX, 165-85; in different possible worlds: VIII, 211-31; distinct memberless: IX, 33-53; in epistemic logic: I, 33-62; events as: IX, 205-10; incompatibility of: VI, 1-13; as intensions: V, 273-97; Leibniz: VI, 1-13; and logic of sense and denotation: VIII, 135-56; for Meinong: VIII, 67-82; nominalism: I, 193-200; II, 399-410; III, 413-25, 431-34; Peirce: II, 191-207; possible: II, 293-301; IV, 311-35; VI, 1-13; in possible worlds: I, 1-8; 33-62; II, 359-72; VI, 1-13; properties and relations: VI, 139-51; relative identity: IV, 241-60; tense logic: II, 191-207; III, 17-32; thinking of: X, 35-45.
Individuation; and bare particulars: IV, 109-34; of bodies: X, 19-33; in Kant: VII, 207-32; principle of: IX, 33-53; Strawson on: V, 3-14, 139-48; and trans-world identity: VII, 330-50.
Induction; Aristotle on: VI, 55-69; grue: VII, 366-78; justification of: II, 315-40; Sellars on: VII, 81-103; SEE ALSO: Grue; Logic, Inductive.
Inference; and logical "ought": VIII, 233-58.
Infinitude; SEE: Finitude.
Infinity; axiom of: IX, 33-53.
Information; deduction and the apriori: IV, 135-52; semantic: I, 207-9; and understanding: IX, 3-16.
Insincerity; and ethical contexts: I, 139-60.
Instantiation; universal: VIII, 309-25.

Instrumental Value; of disjunctive actions: V, 373-84.
Instrumentalism; and theoretical phenomenalism: VII, 120-38.
Intension; intensional analysis: V, 273-97; classes in: II, 373-89; and content: I, 97-121, 161-79; and identification procedures: V, 273-97; intensional contexts: II, 359-72; III, 49-60; V, 107-38, 199-211, 273-97, 335-49; VI, 310-34; intensional logic: III, 33-48; Montague on: V, 273-97; and non-actual possibles: VIII, 211-31; objective analytic: II, 373-89; intensionality of ontological commitment: VI, 378-87; of a propositional term: IX, 211-25; reference to: V, 273-97; Whitehead: II, 373-89; SEE ALSO: Attributes; Extensions; Intentionality; Modal Logic; Quantification.
Intensional Contexts; and singular terms: VIII, 309-25; substitutivity *salva veritate*: VIII, 381-98.
Intensionality; and intentionality in Kant: VII, 207-32.
Intention; and meaning: I, 161-79; III, 155-67; IV, 295-302; and performance: IX, 115-42.
Intentional Action Sentences; and ought-sentences: VIII, 233-58.
Intentionality; I, 97-121; II, 271-92; III, 33-60, 169-83; of actions: V, 335-49; of acts of mind: IX, 55-72, 73-83; Armstrong's causal analysis of: VI, 281-87; attitudes of: V, 179-89; Bergmann on: V, 411-17; and causal analysis: VI, 281-87; events as objects of: V, 183-84, 335-49; Husserl's theory of: IX, 73-83, 85-102; in Kant: 207-32; and possible facts: V, 411-17; reductionist account of: VI, 281-87; referential opacity: V, 124-27; in Sellars: VII, 152-63; in Wittgenstein: II, 341-58.
Interpretation; of formal systems of arithmetic: V, 253-71; general theory of: IX, 85-102; of theories: VIII, 289-94; SEE ALSO: Aristotle.
Introspection; and knowledge in Kant: II, 271-92.
Intuition; in Kant: II, 271-92; VII, 207-32.
Intuitionism; philosophy of mathematics: III, 185-96; VI, 224-39.
Ishiguro, Hidé; on Leibniz: VIII, 381-98.

Jackson, Frank; AUTHOR: III, 345-49.
Jacobson, S.; adverbs: II, 247-51.
James, William; memory: IV, 59-70; passage of time: V, 39-47.
Jefferson, Thomas; on democracy: V, 63-79.
Jeffrey, R.; conditionals: IV, 1-12; on induction: VII, 366-78; lottery paradox: I, 401-11; possible worlds: I, 33-62; VII, 394-407; rational probability revision: V, 299-312; theory of value: V, 373-84.
Jensen, R.; Quine's New Foundations system: IX, 33-53.
Jesperson, Otto; mass and thing words: VI, 369-77; *Philosophy of Grammar*: VII, 56-67.
Jobe, E. K.; objective analytic intensions: II, 373-89.
John, E. R.; memory: IV, 59-70.
Jonesean Myth; in Sellars: VII, 152-63.

Jubien, Michael; AUTHOR: 378-87.
Judgments; I, 97-121; causal: III, 61-72; and ethical cognitivism: IX, 211-25; in Kant: VII, 207-32; legal: III, 61-72; non-inferential: IX, 55-72; probability: V, 299-312; sensuous: VII, 45-56; synthetic a priori: II, 271-92.
Julesz, Bela; perception: V, 81-96.
Justice; and rational cooperation: VIII, 53-65.

Kahane, Howard; AUTHOR: III, 409-12.
Kalish, D.; substitution: II, 165-75.
Kalke, William; AUTHOR: III, 83-93.
Kalmar, L.; contextual definition of 'sum': VI, 153-64.
Kamp, Hans; 'now': II, 101-19.
Kandel, Eric R.; neuropsychology of perception: VIII, 327-42.
Kane, R. H.; behavior: VI, 281-87.
Kanger, Stig; actions: III, 299-323; deontic logic: III, 373-98.
Kant, Immanuel; categorical imperative: IX, 211-25; categories: V, 15-26; contents: I, 97-121; Copernican revolution in philosophy: VI, 274-81; existence as a predicate: III, 259-84; VI, 224-39; experience and rules: V, 81-96; geometry of visibles: VIII, 87-117; inhalt: I, 161-79; intuition: II, 271-92; intuition, synthesis, and individuation: VII, 207-32; modality: III, 155-67; ontological argument: III, 259-84; VI, 251-65; refutation of idealism: V, 15-26; VI, 274-81; the self: II, 341-58; and Sellars on scientific image: VII, 138-51; synthetic a priori: IV, 135-52; V, 15-26; VI, 273-81; transcendental arguments: V, 15-26; VI, 274-81; transcendental propositions: V, 15-26.
Kaplan, David; ambiguity and quotation: IV, 271-77; belief-contexts: V, 273-97; VI, 85-95; formal semantics: IX, 193-204, 205-10; Hangman paradox: VI, 85-95; intensional contexts: VIII, 165-77; intensional logic: VII, 24-33; knowledge: IV, 405-9; VI, 85-95; "Quantifying In": VII, 351-65; standard names: III, 235-58; theories of actuality: VIII, 211-31; theory of reference: IX, 17-32; truth and singular terms: VIII, 309-25.
Katz, Jerrold J.; language learning: IV, 33-43; semantic categories: V, 27-37; statement identity: V, 107-38.
Kaufman, A.; decisions: II, 65-73.
Kauppi, R.; logical space: I, 161-79.
Kemeny, John G.; analyticity: I, 161-79; logic of sense and denotation: VIII, 135-56; probability: IV, 135-52.
Kenny, Anthony; actions: II, 131-45; IV, 311-35; V, 27-37; on Descartes: X, 3-15; emotions: II, 1-23; events: V, 179-89; polyadicity: V, 27-37; "Practical Inference": VII, 56-67.
Keynes, J. N.: extension and intension: I, 161-79.
Kierkegaard, S.; and promotion of epistemic goals: VII, 81-103.

Killing; SEE: Death.
Kim, Jaegwon; AUTHOR: VIII, 41-52; causation: IX, 3-16; events and actions: IV, 25-32; identity of properties: VIII, 119-34; on identity theory: VII, 299-307; psycho-physical identity theory: IV, 15-24; truth: III, 111-28.
Kinds, amounts of: IX, 143-64; and art works: IX, 115-42; and forms: IV, 81-91; natural: IX, 115-42; and wantings: IX, 165-85.
Kiparsky, C.; that-clauses: V, 27-37.
Kiparsky, Paul; that-clauses: V, 27-37.
Kiteley, Murray; AUTHOR: VII, 103-20; paratactic constructions: V, 351-61.
Kleene, S. C.; Löwenheim-Skolem theorem: III, 111-28; number theory: V, 199-211.
Klein, Felix; Erlanger program: VIII, 87-117.
Klima, E. S.; negation: V, 27-37.
Kneale, William; Armstrong on intentionality: VI, 281-87; de dicto and de re: III, 235-58; on Ockham: VII, 13-23.
Knowledge: a priori: VI, 274-81; IX, 211-25; and belief: VIII, 273-82; causal theories of: VII, 1-12; causation and decision: II, 65-73; Chisholm's epistemic principles: III, 73-82; empirical: IX, 211-25, 407-20; epistemic logic: I, 1-62; II, 359-72; III, 95-101, 391-98; 399-408; foundationalism: III, 169-83; of God's existence: VIII, 273-82; inductive logic: I, 401-11; justified true belief: III, 227-31; Kant's theory of: II, 271-92, IV, 135-52; VI, 274-81; knowing who: I, 1-62; II, 391-98; III, 399-408; of language: IV, 33-43; C. I. Lewis on the fallibility of empirical: VI, 359-68; maker's: VI, 274-81; nonbasic: III, 227-31; nonderivative: III, 227-31; objects of human: IX, 55-72; objective: IX, 211-25; paradox of mediate: VII, 34-44; perceptual: IX, 55-72; and performance: IX, 115-42; of physical objects: VIII, 87-117; of reality: IV, 135-52; scientific: I, 283-97; VI, 119-37; self-deception: II, 147-64; self-knowledge: I, 9-21, 33-62, 97-121; II, 191-207, 391-98; synthetic a priori: II, 271-92; IV, 135-52; VI, 274-81; SEE ALSO: Introspection; Logic, epistemic; Logic, inductive; Perception; Propositional Attitude; Sense Perception.

Montgomery, H.; distributivity of contingency: III, 129-53.
Moods; and propositional terms: IX, 211-25.
Moody, E. A.; on square of opposition: VII, 13-23.
Moore, G. E.; acts: III, 299-323; V, 237-52; belief: II, 341-58; on common sense: VII, 87-117; disjunctive syllogism: VI, 335-59; facts: III, 325-43; good: I, 139-60; VI, 119-37; idealism: II, 271-92; Kant: II, 271-92; knowledge: III, 259-84; naturalistic fallacy: VI, 119-37; organic wholes: II, 253-70; perception: II, 271-92; relations: III, 235-58; representations: I, 97-121; utilitarianism: V, 237-52.
Moore, Omar Khayyam; rule-governed behavior: I, 345-60.
Morality; conceptual autonomy of: VII, 67-77; and rational cooperation: VIII, 53-65; and reasonable acceptance: VII, 81-103.
Moral Theses; parallel to problems of reference: IX, 17-32.
Moravcsik, J. M. E.; Strawson and ontological priority: V, 3-14.
Morganbesser, S.; belief and disposition; III, 61-72.
Morley's Theorem: III, 413-25.
Morris, Charles; meanings and rules: IV, 399-404.
Morton, Adam; AUTHOR: VII, 394-407; IX, 309-18; predicate modifiers: IV, 311-35.
Mothersill, Mary; on C. I. Lewis: IX, 211-25.
Motion; absolute: VI, 266-73.
Motivation: IV, 367-83.
Mott-Smith, Morton; kinetic energy: VIII, 119-34.
Mouton, David L.; AUTHOR: III, 355-72.
Movements; SEE: Acts.
Mucciolo, Laurence F.; AUTHOR: VIII, 327-42.
"Much"; logical structure of: VI, 319-34; SEE ALSO: Terms, mass.
Müller, Anselm; omniscience: II, 191-207.
Mueller, Ian; on Plato's *Euthyphro*: VI, 119-37.
Mundle, C. W. K.; time: IV, 153-73; V, 39-47.
Munsat, Stanley; AUTHOR: IV, 70.
Murder; and utilitarianism: X, 145-71.
Music; ontology of: IX, 115-42; representational: VI, 41-53.
Myhill, John; logic of sense and denotation: VIII, 135-56; truth: III, 111-28.
Mystical Claims; verification of: X, 47.

Naess, Arne; interpretations and preciseness: I, 161-79.
Nagel, Ernest; amounts: IX, 143-64; bridge laws: VIII, 119-34; on causal relations: VII, 179-202; geometry: V, 253-71; necessary laws: II, 315-40; scientific theories: IX, 17-32.
Nagel, Thomas; AUTHOR: IV, 73-80; on physicalism: VII, 299-307.
Nakhnikian, George; AUTHOR: III, 197-209; X, 15-7; existence: III, 33-48; naturalistic fallacy: VI, 119-37.

Names; denotationless: VIII, 135-56, 259-72; function: VI, 251-65; logically proper: II, 359-72; Wittgenstein: II, 341-58; IV, 209-23; SEE ALSO: Proper names.
Naming; theory of reference: VIII, 343-59.
Narration; in works of art: X, 49-61.
Narveson, Jan; AUTHOR: X, 173-94.
Nash, John; rational cooperation: VIII, 53-65.
Natural Kinds; and sortal predicates: VII, 268-282; species and determinates: III, 95-101, 409-12; SEE ALSO: Determinates; Species.
Natural Right; property: X, 77-86.
Naturalism; ethical: VII, 67-77; noncognitivism: I, 139-60; and utilitarianism: I, 81-90.
Naturalistic Fallacy; VI, 132-35.
Natures; bare particulars: I, 211-12; IV, 109-34; Fisk's theory of: X, 345-53.
Necessity; of attributes: I, 91-96, 181-91; Bergmann's three grades: IV, 109-34; criteria and: VII, 313-329; de dicto and de re: V, 215-25, 227-32, 273-97; distributivity of: III, 129-53; Fisk's theory of: X, 345-53; and future tense: VIII, 283-88; Hume: I, 255-82; and Humean causation: IX, 269-93; identity through possible worlds: I, 1-8; intentionality of: III, 49-60; and lawfulness: V, 157-78; of laws: II, 315-40; logic of sense and denotation: VIII, 135-56; meaning relations: III, 155-67; physical: X, 345-53; Plantinga on: V, 215-25, 227-32; pragmatic: VII, 247-68; IX, 211-25; quantification and referential opacity: VI, 224-39; SEE ALSO: De re and de dicto; Properties (Accidental and Essential); Logic, modal.
Negation; classical: VI, 335-59; and denial: III, 211-18; and facts: III, 325-43; and questions: V, 27-37; Russell on: VI, 27-40; in systems of entailment: VI, 335-59.
Neisser Ulrich; mechanistic psychology: V, 81-96.
Nelson, Jack; AUTHOR: IV, 241-60.
Nerlich, Graham; AUTHOR: 247-68; statements: II, 229-46.
Neurath, Otto; meaning and protocols: V, 3-14.
Neurological Equipotentiality: VIII, 327-42.
Neuropsychology; and the identity thesis: VIII, 327-42.
Newton, Isaac; absolute space: VI, 266-73, 289-309; time: III, 1-16.
Newton, Roger; relativity and causation: IX, 3-16.
Nexus; Bergmann's ontology: IV, 109-34.
Nicole, P.; comprehension-intension: I, 161-79.
Nielson, K.; abstraction: I, 161-79.
Noemata; VII, 67-77; and noesis; IX, 73-83, 85-102.
Noesis; and noema: IX, 73-83, 85-102.
Nominalism: I, 193-200, 413-19; II, 25-46, 399-400; III, 413-34; IV, 185-93; bare particulars: I, 211-12; Hume: I, 255-82; and measurement: IX, 143-64; physics: I, 283-97; set theory: IV, 225-40; theory of meaning: VIII, 343-59.

Nominative Nature; of properties and relations: IX, 33-53.
Noncausal Connections: VIII, 41-52.
Noncognitivism: I, 139-60; II, 1-23.
Nordenstam, Tore; on Austin: II, 209-27.
Normative; judgments: II, 1-23; statements: III, 169-83.
Normative-Descriptive Distinction; and logical "ought": VIII, 233-58.
Norm-Kinds; and art words: IX, 115-42.
Norms; C. L. Stevenson: I, 139-60; rules: I, 63-79.
Nosich, J.; theory change: IX, 17-32.
Noun; count: VI, 369-77; IX, 143-64; mass: VI, 369-77; IX, 143-64.
"Now"; II, 101-19, 411-12; III, 1-43; IV, 175-88; SEE ALSO: Logic, tense; Present.
Nowell-Smith, Patrick H.; AUTHOR: I, 81-90; attitudes: II, 1-23; good samaritan paradox: I, 361-79; on obligation: I, 345-60; practical nature of ethics: I, 139-60; and prescriptivism: VII, 56-67.
Nozick, R.; and killing: X, 145-71; property rights: X, 77-86.
Number Theory: formal truth definitions for: V, 199-211, 363-72.
Numbers; analog and digital representations of: V, 321-27; and denotations: VIII, 259-72.
Nute, Don, Jr.; AUTHOR: X, 355-61.
Nuwer, M.; neuropsychology: VIII, 327-42.

Objects; abstract, truth, and quantification: V, 363-72; *Aussersein* of pure: VIII, 67-82; comprehensive objecthood (tense logic): III, 17-32; and concepts: VIII, 259-72; exemplifying properties: IV, 285-93; of experience in Kant: II, 271-92; fictional: IX, 165-85; for Frege: VI, 251-65; indiscernibility of: VIII, 309-25; intentional: IX, 165-85; intentional *vs.* actual: V, 411-17; nominal: I, 215-29, 413-19; non-real: IX, 73-83; as ontological category in Wittgenstein: VII, 233-47; ontological priority of physical: V, 139-55; physical: IX, 115-42; physical and geometry of visibles: VIII, 87-117; possible: VIII, 165-77; terms: VIII, 381-98; visual: VIII, 87-117; Wittgenstein: II, 341-58; IV, 209-23.
Object-Works; and art works: IX, 115-42.
Obligation; I, 345-60; II, 359-72; IV, 367-83; of citizens: VI, 15-26; contrary-to-duty imperatives: I, 303-44, 361-400; deontic logic: III, 373-98; duties and rights: IV, 45-57; legal: II, 47-64; intentionality of: III, 49-60.
Obligation-Sentences; and ought-sentences: VIII, 233-58.
Oblique Contexts; Davidson on: V, 351-61; referential ambiguity in: V, 273-97.
Occurrence; of events and states of affairs: IV, 15-24; V, 179-89; and performances: IX, 115-42.
Ockham, William of; *suppositio* and quantification in: VII, 13-23.
O'Conner, D. J.; intentional contexts: V, 107-38.
Olafson, Frederick A.; AUTHOR: IX, 73-83.

Omnipotence; I, 201-205; and free will: II, 293-301; III, 259-84.
Onomatopoeia; representation and imitation: VI, 41-53.
Ontological argument: III, 259-84; IV, 175-88; Frege on: VI, 251-65.
Ontological Commitment; VII, 1-12; 394-407; criteria of: V, 139-55, 179-89, 335-49; VI, 240-50; and essentially arising questions: V, 27-37; events: V, 335-49; intensionality of: VI, 378-87; *vs.* ontology: VI, 378-87; quantification: I, 161-79; VI, 240-50; Quine: IV, 201-4, 241-60; VI, 240-50, 378-87; to types of facts: V, 395-409; to universals: II, 1-23; SEE ALSO: Substitution (interpretation of quantifiers).
Ontological Grammar: VI, 165-87.
Ontological Priority: of physical objects: V, 139-55; Strawson on: V, 9-13, 139-55.
Ontological Dependence; *vs.* causal dependence: VI, 139-51.
Ontological Reduction; critical study: IX, 429-46; and substitutional quantification: V, 363-72.
Ontology; of art works: IX, 115-42; Bergmann's: IV, 109-34; and categories in Sellars: VII, 103-20; criteria for: V, 139-55; formal: VI, 165-87; and economy: IV, 25-32; and grammar: IV, 25-32; and ideology: IV, 241-60; and logical form: III, 325-43; and method in Wittgenstein: VII, 233-47; of natural languages: V, 27-37; *vs.* ontological commitment: VI, 378-87; and theories: IV, 201-4, 241-60; theory of types: VI, 153-64; and truth: V, 199-211; SEE ALSO: Being, Existence; Mathematics; Metaphysics; Nominalism.
Opaque Contexts; and attributives: VI, 310-34; and ontological commitment: VI, 378-87; SEE ALSO: Referential Opacity.
Operability; of laws: II, 47-64.
Operationalism; Duhem: I, 283-97.
Operators; variable-binding: IX, 33-53.
Oppenheim, P.; acts: IV, 367-83; explanation: II, 121-29; V, 199-211.
Opportunity; equality of: VIII, 53-65.
"Ought"; logical: VIII, 233-58; OUGHT-IS DISTINCTION: and logical "ought", VIII, 233-58; OUGHT TO: Searle, V, 385-94; OUGHT TO DO'S AND OUGHT TO BE'S: I, 381-400; III, 73-82, 299-323; alternative actions, V, 237-52; contrary-to-duty imperatives, I, 303-44; and obligations, I, 345-60; possible worlds, I, 361-79; and rules, I, 97-121; OUGHT-TO PROBLEM: VII, 67-77; "OUGHT"-SENTENCES: logical form of, VIII, 233-58; Truth conditions for, VIII, 233-58; OUGHT STATEMENTS: and opacity, VII, 407-12; and prescriptivism, VII, 56-67.
Overdetermination; and causation: IX, 3-16.
Ownership; property: X, 77-86.

Padoa, A.; extensions: I, 161-79.
Pailthorp, Charles; AUTHOR: VI, 359-68.
Pain; VII, 313-29; Reid's analysis of: IX, 55-72.

Pap, Arthur; category-mistake: III, 211-18; distributivity of contingency: III, 129-53; regularity theory: II, 315-40.
Paradox; Burali-Forti: IX, 33-53; Cantor's: VI, 153-64; of confirmation: IV, 1-12; contrary-to-duty imperative: I, 303-44, 361-400; III, 373-98; Epimenides: VIII, 135-56; epistemic obligation: I, 361-79; good samaritan: I, 361-79; III, 299-323; Grelling's: III, 211-18; IV, 241-60, 405-09; VIII, 135-56; Hangman: VI, 85-95; Hempel's: II, 315-40; III, 373-98; IV, 1-12; V, 157-78; heterological: III, 211-18; liar: III, 211-18; IV, 405-09; VI, 153-64; VIII, 1-12; IX, 211-25; liar and semantics: X, 305-11; logical: VI, 153-64; lottery: I, 401-11; pragmatic: VIII, 273-82; of predication: IX, 33-53; raven: II, 315-40; III, 345-49; IV, 1-12; V, 157-78; Richard's: IV, 241-60; VIII, 135-56; Ross's: III, 373-98; Russell's: IV, 405-09; VI, 153-97; VIII, 1-12, 189-94; IX, 33-53; self-deception: II, 147-64; of self-reference: IX, 205-10; semantic: III, 211-18; IV, 271-77, 405-09; VI, 153-64; semantical: VIII, 211-31; set-theoretic: VIII, 1-12; Skolem's: III, 185-96; VIII, 289-94; time travel: IV, 261-69; in von Wright's deontic logic: III, 373-98; Zeno: V, 39-47.
Paratactic Constructions; Davidson on: V, 351-61.
Parkinson, G. H. R.; compossible individuals in Leibniz: VI, 1-13.
Parks, Zane; AUTHOR: VII, 330-50.
Parsons, Charles; AUTHOR: VIII, 1-12; on representations in Kant: VII, 207-32; substitutional quantification: V, 363-72.
Parsons, Kathryn Pyne; AUTHOR: VII, 379-94.
Parsons, Terence; AUTHOR: I, 181-91; applied amount terms: IX, 143-64; essentialism: I, 91-96; III, 155-67; predicate modifiers: IV, 311-35.
Partee, Barbara; logical form: VIII, 157-64.
Partial Worlds; *vs.* possible worlds: VII, 394-407.
Participation; VI, 139-51; in the *Sophist*: IV, 81-91.
Particulars; and artworks: IX, 115-42; bare: I, 211-12; IV, 109-34, 209-23; basic: V, 3-14; continuants: IV, 279-83; events: IV, 25-32; nominalism: I, 413-19; perfect: IV, 109-34; Strawson on: V, 139-55; theory of meaning: VIII, 343-59.
Partition; and rational belief: III, 285-97.
Part-Whole Relation: IX, 429-46.
Pastin, Mark; AUTHOR: IX, 407-20.
Paton, H. J.; on Kant: II, 271-92.
Patzig, Günther; apodexis *vs.* deixis in Aristotle: VI, 55-69.
Peach, Bernard; AUTHOR: IX, 211-25.
Peano, G.; arithmetic: V, 363-72; extensions: I, 161-79; quantification: IV, 12.
Pears, D. F.; decisions: II, 65-73.
Peirce, C. S.; modality, quantification, and individuality: II, 191-207; quantification: IV, 1-12; Quine: IV, 201-4; and Sellars on scientific image: VII, 138-161.
Penelhunc, Terence; necessary being: III, 259-84.

Pennock, J. R.; freedom: IV, 367-83.
Penrose, R.; cosmology: IV, 261-69.
Perception: Armstrong's causal analysis of: VI, 281-87; holographic model of: VIII, 327-42; Kant on: VI, 274-81; neuropsychology of: VIII, 327-42; and other minds: VII, 34-44; phenomenology of: IX, 85-102; psychology of: VIII, 87-117; and propositions: VIII, 381-98; for Reid: IX, 55-72; and sense impressions: VII, 45-56; SEE ALSO: Sense Perception.
Performance; of art work: IX, 115-42; linguistic: I, 97-121.
Performance-Works; and universals: IX, 115-42.
Performatives; and constatives: II, 209-27.
Perlocutionary Acts; SEE: Illocutionary acts.
Permission; deontic logic: III, 373-98.
Perry, John; individuals in different possible worlds: VIII, 211-31.
Perry, R. B.; on Moore: I, 139-60.
Perspective-Tensing: VII, 164-78.
Peter of Spain: SEE: Hispanus, Petrus.
Peters, R. S.; duties and rights: IV, 45-55.
Peterson, Sandra Lynn; belief and satisfaction: V, 199-211.
Phenomenalism; Aune: III, 169-83; epistemology: III, 73-82; and Lewis' fallibilism: VI, 359-68; perception: II, 271-92; theoretical: VII, 120-38.
Phenomenology; of art-work distinctions: IX, 115-42; and hermeneutics: IX, 85-102; and mechanistic psychology: V, 81-96; verification of mystical claims: X, 47.
Philosophy; history of: VIII, 381-98.
Phlogiston; reference of term: X, 261-82.
Phrastic; *vs.* locutionary act: VI, 201-24; and propositional content: VII, 56-67.
Physicalism: III, 169-83; IX, 353-74.
Physical Objects; ontological priority of: V, 139-55.
Piaget, Jean; mechanistic psychology: V, 81-96.
Picture Theory; Wittgenstein: IV, 209-23.
Pietarinan, J.; and Hintikka on definition of utility: VII, 81-103.
Piety; in Plato's *Euthyphro*: VI, 119-37.
Pitcher, George; emotions: II, 1-23.
Plamenatz, J. P.; acts: IV, 367-83.
Plantinga, Alvin; AUTHOR: III, 235-58; V, 227-32; essentialism: V, 215-25; VI, 153-64; VII, 351-65; free will and omnipotence: I, 201-5; II, 293-301; III, 259-84; minds: III, 49-60, 259-84; on other minds: VII, 313-29; ontological argument: VI, 251-65.
Plato; analysis and definition in *Euthyphro*: VI, 119-37; concepts and speech: I, 97-121; on democracy: V, 63-79; falsehood in *Sophist*: IV, 81-91; on identification of bodies: X, 19-33; on individuals: X, 35-45; knowledge and belief: VIII, 273-82; memory: IV, 59-70;

participation: IV, 349-65; rules and behavior: V, 81-96; theory of meaning: VIII, 343-59.
Platonism; in mathematics: III, 185-96; and nominalism: I, 413-19; II, 25-46.
Platt, J. R.; strong inference: IX, 3-16.
Poincaré, Henri; existence: II, 25-46; non-Euclidean geometry: VIII, 87-117.
Political Philosophy; rational cooperation and justice: VIII, 53-65.
Polyadicity; variable: V, 27-37.
Popper, Karl; on induction: VII, 366-78; practical nature of ethics: I, 139-60; rationalism and self-reference: IV, 405-9.
Port-Royal Logic and Grammar; comprehension: I, 161-79; language learning: IV, 33-43.
Position-Tensing: VII, 164-78.
Positionality: II, 315-40.
Positivism; verifiability criterion of meaning: VI, 289-309.
Possible Entities; I, 161-79; III, 155-67, 259-84; IV, 175-88; SEE ALSO: Individuals.
Possible Worlds; IX, 193-204, 205-10, 211-25; X, 65-75; and causation: IX, 3-16; conditional assertion: IV, 1-12; and counterfactuals: X, 355-61; deontic logic: I, 361-79; III, 373-98; and determinism: VIII, 283-88; and essentialism: VII, 351-65; identity: I, 1-8; II, 87-89, 359-72; III, 95-101; individuals and epistemic logic: I, 33-62; and information: IV, 135-52; intensional contexts: V, 372-97; in intensional logic: VII, 24-33; and laws: V, 157-78; Leibniz on: VI, 1-13; logic of sense and denotation: VII, 24-33; VIII, 135-56; modal arguments: IV, 175-88; and necessity: V, 173-77, 273-97; and possibilia: VII, 394-407; and propositional attitudes: VIII, 157-64; and quantified modal logic: VII, 330-50; reference to: V, 273-97; semantics for epistemic and perceptual concepts: VII, 207-32; semantics of first-degree entailment: VI, 335-59; semantics for quantification: VI, 240-50; tense and egocentric logic: II, 191-207; and theories of actuality: VIII, 211-31; truth definition: VIII, 343-59.
Possibilism; and possible worlds: VIII, 211-31.
Possibility; and compossibility: VI, 1-13; sentences about past: X, 313-25.
Post, John F.; AUTHOR: IV, 405-9.
Postal, Paul; 'some': IX, 143-64.
Potter, K.; negation: III, 211-18.
Powers, Lawrence; AUTHOR: I, 381-400; deontic logic: III, 299-323, 373-98.
Practices; rules: I, 63-79; IV, 349-65.
Prado, C. G.; AUTHOR: VI, 281-87.
Pragmatic Analyses; of causation: IX, 3-16.
Pragmatic Inconsistency: III, 197-209.

Pragmatics; assertion: IV, 1-12; attributes: III, 33-48; and cogito propositions: III, 197-209; of explanation: III, 61-72; vs. semantics: I, 161-79; III, 155-67; IV, 13, 385-97.
Pragmatism; Hume: I, 255-82.
Prawitz, Dag; ideal absolute ought: X, 121-44; utilitarianism: III, 299-323; utilitarianism and mistakes: X, 195-219.
Predicables; Geach: IV, 241-60.
Predicates; adverbs: II, 247-51; IV, 311-35; analogical: IX, 115-42; antonymic: VII, 371-80; atomic: VIII, 309-25; categorial: VII, 103-20; and classes: VIII, 1-12; denial: III, 211-18; egocentric logic: II, 191-207; equivocal: IX, 115-42; exemplification: IV, 285-93; existence: II, 165-75; and explanation: III, 61-72; Frege's treatment of: VIII, 259-72; intensional: VIII, 165-77; in lawlike statements: II, 315-40; of mental acts and material things: I, 97-121; modifiers: IV, 311-35; ordinary language: VIII, 165-77; projectibility of: VII, 366-78; and sets: VIII, 289-94; shared by art works and examples: IX, 115-42; sortal: VII, 268-82; truth: I, 413-19; univocal: IX, 115-42.
Predication; Russell's paradox of: VI, 165-87; second-order theories of: IX, 33-53, 165-85; and singular terms: VIII, 309-25.
Predicative Nature; of properties and relations: IX, 33-53.
Prediction; and possible worlds: VIII, 211-31; SEE ALSO: Confirmation; Theory.
Preference; cycles: VI, 97-117; logic of: II, 75-79, 253-70; rectification of: VIII, 13-24; theories of: VI, 97-117; utility and personal probability: IV, 337-48.
Prescriptivism; and practical reasoning: VII, 56-67.
Present; and duration: V, 39-47.
Presentation; mode of: II, 373-89.
Presumption; and possible worlds: IX, 205-10.
Presupposition; and ontological commitment: II, 25-46; and topic of statements: V, 107-38; and transcendental arguments: V, 15-26; of why-question: VIII, 371-80; SEE ALSO: Presumption.
Pretending; to be awake: I, 299-301; II, 91-94.
Pribram, Karl H.; behavior: V, 81-96; and type materialism: VIII, 327-42.
Price, H. H.; half-belief: II, 147-64; memory: IV, 59-70; perception: III, 73-82; thinking: III, 355-72.
Prichard, H. A.; Hume on relations: I, 255-82; and Ought-judgments: VII, 67-77; perception: II, 271-92.
Principle; the mapping: VIII, 165-77; connecting: VIII, 119-34.
Prior, A. N.; AUTHOR: II, 101-19; 191-207; 411-12; egocentric logic: III, 17-32; events: IV, 311-35; existence: II, 165-75; future-tense statements: VIII, 283-88; good samaritan paradox: I, 361-79; on "identifiable individuals": I, 1-8; indexicals: IV, 175-88; modal logic: VII, 330-50; 'now': IV, 175-88; V, 419-21; on obligation: I,

345-60; propositions: III, 33-48; semantics for tense logic: IX, 193-204, 205-10; temporal relations: IV, 153-73; tense logic: II, 303-14; III, 17-32; V, 191-97, 419-21; universal quantifier: I, 161-79.

Prisoner's Dilemma: VIII, 53-65.

Private Language Argument: II, 191-207; III, 169-83; IV, 349-65; and verificationism: V, 3-14.

Probability; and alternative actions: V, 373-84; certainty and correction of evidence: V, 299-312; comparative: VII, 81-103; and detachment: I, 401-11; entailment and support: III, 345-49; explanations: II, 121-29; impossibility of rational disagreement: X, 327-32; interval-valued probability functions: V, 299-312; necessitarianism: V, 299-312; personalistic: IV, 337-48, 93-103; V, 299-312; and statistics: IV, 337-48.

Projectibility; II, 315-40; and entrenchment: VII, 366-78; and explanation: III, 61-72.

Projection; theory of: IX, 269-93, 319-28, 329-39.

Pronouns; indefinite: V, 27-37; SEE ALSO: Egocentric Logic; He (himself); Indexicals; Quasi-Indicators.

Proper Names; I, 33-62; 207-9; II, 373-89; and defining de re necessity: V, 215-25, 227-32; for Frege: VI, 251-65.

Properties; bare particulars: I, 211-12; IV, 109-39; change: IV, 279-83; as classes: IX, 33-53; class-concepts: II, 373-89; complements of: VI, 10-13, 37-39; complex: VI, 153-64; IX, 429-46; as components of individuals: VI, 139-51; as discrimination procedures: V, 273-97; dispositional: V, 157-78; essential: VII, 351-65; essential and accidental: I, 1-8, 33-62; II, 87-89; III, 235-84, 409-12; V, 215-32; VI, 153-64; exemplification: IV, 285-93; VI, 289-309; existence of: VI, 139-51; geometrical: VIII, 87-117; as grounds of relatedness: VI, 139-51; Hume: I, 255-82; identification of: VIII, 119-34; as individuals: VI, 165-87; IX, 33-53; instantiation of physical: VI, 289-309; of nonexistent entities: VIII, 67-82; physical: VI, 289-309; in possible worlds: I, 1-8; II, 87-89; and predication: IX, 33-53, 115-42; predicative *vs.* impredicative: VI, 165-87; principle of abstraction for: VI, 159-64; projectable: IX, 319-28, 329-39; psychological: III, 83-93; reduction of relations to: VI, 139-51; reference to: VI, 165-87; relational: VI, 139-51, 289-309; Russell's paradox: VI, 153-87; and Sellars' ontology of categories: VII, 103-20; as significations of propositional terms: IX, 211-25; simple: VIII, 211-31; simple *vs.* complex: VI, 159-87; teleologically significant: VIII, 185-94; tense logic: II, 191-207; truth: I, 413-19; in Wittgenstein: VII, 233-47; SEE ALSO: Attributes; Predicates; Species.

Property Rights: X, 77-86.

Proposition: and actions: V, 379-84; arithmetical: V, 253-71; atomic: III, 129-53; categorical: VII, 13-23; conditional assertion: IV, 1-12;

contingent: III, 129-53; 197-209; and events: IV, 15-24, 25-32, 311-35; V, 179-89; and facts: VI, 27-40; intentional: V, 411-17; kinds of: VII, 179-202; Leibniz: VIII, 381-98; C. I. Lewis on: IX, 211-25; necessary: III, 129-53; and possible worlds: VIII, 211-31; IX, 193-204; X, 65-75; and statement: I, 215-29, 283-97; II, 209-46; V, 107-38; and states of affairs: V, 179-89, 373-84; subjective: III, 73-82; tensed: II, 101-19, 191-207; and truth: II, 373-89; III, 33-48; IV, 15-24; and truth-values: IX, 205-10; Wittgenstein: II, 341-58; IV, 209-23; VII, 233-47; SEE ALSO: Categorical Statement.

Propositional Attitudes; I, 1-21, 215-29; II, 359-72; 391-98; V, 273-97; VI, 85-95; and propositions: IV, 15-24; and substitutivity: VI, 224-39; Wittgenstein: II, 341-58; SEE ALSO: Logic, epistemic; that-clauses.

Propositional Content: VII, 56-67.

Propositional Forms; and properties: VI, 153-64.

Propositional Function: II, 359-72.

Psychological States; and language learning: IV, 33-43.

Psychologism; in philosophy and semantics: VIII, 259-72.

Psychology; functionalism: III, 83-93; mechanistic *vs.* phenomenology: V, 81-96; phenomenological: IX, 85-102; SEE ALSO: Mental; Mind; Neuropsychology.

Punishment; and libertarianism: VIII, 195-99

Purposes; human: IX, 211-25; presumptive: IX, 211-25.

Purtill, R. L.; AUTHOR: II, 87-89; possible worlds: VII, 330-50.

Putnam, Hilary; AUTHOR: VIII, 25-40; behavior: V, 81-96; VII, 313-29; functionalism: III, 83-93; Löwenheim-Skolem Theorem: III, 111-28; meaning and rules: IV, 399-404; mind: III, 49-60; psychological explanation: V, 81-96; size of universe: IV, 261-69; theory change: IX, 17-32; theory of reference: X, 261-82; time: III, 17-32; topic of a statement: V, 107-38.

Qualities; Bergmann; IV, 109-34; and erlebs: VIII, 295-97; Hume: I, 255-82.

Quantification; epistemic contexts: I, 23-62; II, 391-98; III, 399-408; and existence: VI, 224-39; and logical form: VIII, 157-64; meaning relations: I, 161-79; III, 155-67; modal logic: I, 91-96, 181-91; II, 359-72; III, 49-60, 155-67; and modes of being: VIII, 67-82; objectual: VI, 224-39; VIII, 289-94; and ontology: VI, 240-50; in opaque contexts: VII, 207-32; overtimes: IV, 153-73; in Peirce: II, 191-207; IV, 1-12; over possible objects: IV, 175-88; possible-worlds semantics: VI, 240-50; and quotation: IV, 271-77; and reference: VI, 224-39; referential opacity: I, 9-21; II, 391-98; VI, 224-39; restricted: IV, 1-13, 271-77; and Sellars' ontology of categories: VII, 103-20; substitutional: VIII, 1-12, 316-69; and *suppositio* in Ockham: VII, 13-23; tense logic: III, 17-48; truth and abstract objects: V, 373-84; SEE ALSO: Existence; Logic; Ontological commitment; Substitutional Quantification.

Quantifier; 'many': VIII, 157-64; metalanguage: IX, 165-85; referential interpretation of: IX, 187-92; substitution: IX, 165-85, 187-92.
Quantities; ontological status of: IX, 143-64.
Quantum Mechanics: IV, 93-104.
Quasi-Indicators: I, 9-21; II, 101-19; SEE ALSO: Castañeda; Indexicals.
Questions; conditional: IV, 1-12; effectivity: III, 211-18; in natural languages: V, 27-37; and pragmatic discourse: IX, 3-16; why-: VIII, 371-80.
Quine, W. V.; AUTHOR: IV, 12; amounts: IX, 143-64; belief: VIII, 233-58; classes and attributes: I, 231-41; II, 303-14; conditionals: IV, 1-12: contextual definition of classes: VI, 153-64; conventionalism: I, 283-97; VIII, 25-40; definability and decidability: III, 111-28; essentialism: I, 91-96, 181-91; III, 155-67, 235-58; VII, 351-65; eternal sentences: VIII, 179-84; existence: IV, 201-4; VI, 224-39; hierarchy of types: IX, 33-53; identity: VI, 369-77; VIII, 309-25; Identity of indiscernibles: IV, 241-60; identity thesis: VIII, 327-42; indeterminacy of translation: IV, 33-43, 285-93; VIII, 327-42, 343-59; IX, 353-74; individuals: IV, 225-40; intensional contexts: VIII, 165-77; intensions: I, 97-121; language: IV, 385-97; language learning: IV, 33-43; mass and count nouns: VI, 369-77; meaning: IV, 33-43, 285-93, 385-404; on necessity: VII, 247-68; VII, 313-29; New Foundations system: IX, 33-53; ontic commitment: VIII, 289-94; ontological commitment: VI, 165-87, 378-87; ontological reduction: V, 363-72; ontological relativity: IX, 243-67; ontology and ideology: IV, 241-60; V, 363-72; ordered pairs: II, 373-89; possible entities: I, 161-79; on possible worlds: VII, 394-407; predicate modifiers: IV, 311-35; propositional attitudes: IV, 15-24, 351-61; VI, 85-95; quantification: IV, 12, 271-77; VI, 224-50; quotation: IV, 271-77; radical translation: V, 199-211; VIII, 25-40; reference: IV, 385-404; VI, 224-39; referential opacity: I, 9-21, 23-62; II, 391-98; V, 107-38; relational senses of belief: VI, 85-95; on sortal predicates: VII, 268-82; substitutional quantification: III, 185-96; V, 199-211; VI, 224-50; VIII, 1-12, 361-69; substitutivity: VI, 224-39; tenses: III, 17-32; VII, 164-78; theory of belief: IX, 421-26; thesis: IX, 33-53; topic of a statement: V, 107-38; and translation: X, 283-304; truth: I, 413-19; III, 111-28; VII, 379-94; VIII, 1-12, 343-59; universals: II, 25-46; virtual classes: II, 373-89; VIII, 1-12; 'wants': VIII, 165-77.
Quotation; dot: I, 97-121, 215-29; and quantifiers: IV, 271-77; V, 213-14; and substitutional quantification: VI, 224-50; and substitutional quantifiers: IX, 165-85, 187-92; and substitutivity: VI, 224-39.

Rabin, Michael O.; rights and obligations: IV, 45-55; Skolem's paradox: III, 185-96.
Raiffa, H.; bargaining problem: VIII, 53-65; probability judgments: V, 299-312.

Ramsey, Frank P.; complex universals: VI, 153-64; probability: IV, 135-52; on quantification: VII, 13-23; sentences: VII, 120-38; redundancy theory: II, 101-19; semantic scholasticism: IX, 17-32; substitutional quantification: V, 199-211; theorem: IV, 337-48.
Randomness; and causation: IX, 3-16.
Rational, disagreement: X, 327-32.
Rationality; and behavior: IX, 211-25; of cooperation: VIII, 53-65; of decision-making principles: VI, 97-117; and "logical ought": VIII, 233-58; and morality: VIII, 53-65.
Rawls, John; justice: VIII, 53-65; and killing: X, 145-71; property rights: X, 77-86.
Rayfield, David; AUTHOR: II, 131-45.
Realism, Aune: III, 169-83; perception: II, 271-92; in physics: I, 283-97; scientific: VII, 1-12; theory of meaning: VIII, 343-59.
Reality; and appearance: VI, 359-68; and information: IV, 135-52; in ontological argument: IV, 175-88; transcendental and phenomenal: II, 271-92.
Reasons; for actions: IV, 367-83; causes: III, 61-72; and experience: VII, 56-67; moral: II, 1-23; SEE ALSO: Causality; Explanation.
Reasoning; practical: VII, 56-67; VII, 67-77.
Re-Cognition; in Bergmann's ontology: IV, 109-34.
Recurrence; of events: IV, 15-32; V, 179-97, 335-49
Reducibility; axiom of: IX, 33-53; and physicalism: IX, 353-74; second-order logic: II, 165-75.
Reductions: X, 261-82.
Reductionism; and bridge laws: VIII, 119-34; and conventionalism: VIII, 25-40; and the identity thesis: VIII, 327-42.
Redundancy Theory: tense logic: II, 101-19.
Reeves, Alan; AUTHOR: VIII, 343-59.
Reference; to actions: IV, 311-35; Aune: III, 169-83; conventionality of scheme of: IX, 375-406; identifying: V, 139-55; to individuals: X, 35-45; intended: IV, 285-93; and intentionality: IX, 73-83; language: IV, 209-23; and meaning: VIII, 25-40, 343-59; modality: II, 359-72; III, 155-67; in music: VI, 41-53; for nouns: VIII, 259-72; and quantification: VI, 224-50; semantics: II, 25-46; III, 155-67; IV, 271-77, 385-97; V, 199-211, 273-97; of singular terms: VIII, 309-25; of terms and conceptual frameworks: IX, 243-67; of theoretical terms: X, 261-82; theory of: VII, 379-94; and theory comparison: IX, 17-32; and time: IV, 153-74; truth: I, 413-19.
Referential multiplicity; and referential opacity: VI, 224-39.
Referential opacity; and if . . . then . . . ought . . . contexts: VIII, 233-58; and attributives: VI, 310-34; criterion of intentionality: IX, 73-83; and deontic logic: VII, 407-12; and essentialism: VII, 351-65; and moral conflict: VIII, 233-58; and ontological commitment: VI, 378-87; variables and quantification: I, 9-21, 23-31; SEE ALSO: Intensional Context; Oblique Context.

Regularity; axiom of: II, 399-403; III, 413-25; 431-34; theory: II, 315-40.
Reichenbach, Hans; absolute motion: VI, 266-73; absolute space: VI, 289-309; conventionalism: VIII, 25-40; geometry: VIII, 25-40; measurement: I, 283-97; on scientific theories: VII, 1-12; tenses: III, 17-32.
Reid, Thomas; Berkeleyan idea of sense: IX, 55-72; doctrine of sensory images: IX, 55-72; and geometry of visibles: VIII, 87-117; perception: II, 271-92.
Re-Identification: I, 33-62; II, 87-89; for particulars: V, 139-55, 313-19; and verificationism: V, 3-14.
Relatedness; grounding of in properties: VI, 139-51.
Relations; adicity of: V, 313-19; asymmetry: VI, 139-51; causal: VII, 1-12; equivalence: VII, 259-72; existence of: VI, 139-51; geometrical: VIII, 87-117; Hume's theory of: I, 255-82; instantiation of physical: VI, 289-309; internal and external: III, 235-58; VI, 139-51; meaning: I, 161-79; III, 155-67; multigrade: IX, 309-18; nominalistic set theory: IV, 225-40; as ontological grounds of relatedness: VI, 139-51; physical: VI, 289-309; and predication: IX, 33-53; predicative *vs.* impredicative: VI, 165-87; reduction to properties: VI, 139-51; VIII, 381-98; simple *vs.* complex: VI, 165-87; social: IX, 211-25; spatio-temporal: II, 271-92; temporal: IV, 153-73; unreality of: IV, 209-23; VI, 139-51; Wittgenstein: II, 341-58.
Relativity Theory; II, 315-40; IV, 261-69; and absolute space: VI, 289-309; and causation: IX, 3-16; Einstein's IX, 243-67; ontological: IX, 243-67; and tense logic: V, 419-21.
Relativization; and ethical contexts: I, 139-60.
Relevance; circumstances: I, 303-44, 381-400; of explanations: II, 121-29; SEE ALSO: Entailment.
Rennie, Michael K.; AUTHOR: II, 75-9; V, 253-71; analyticity of arithmetical propositions: V, 253-71; definitions in formal systems: V, 253-71; empiricist theory of mathematics: V, 253-71; Hare on 'better': II, 75-79; interpretation of formal systems of arithmetic: V, 253-71; Mackie on arithmetical propositions: V, 253-71.
Replacement; axiom of: IX, 33-53; SEE ALSO: Set Theory.
Representation; ideas: I, 97-121, 255-82; and intentionality in Kant: VII, 207-32; and memory: IV, 59-71; in music: VI, 41-53; picture theory: IV, 209-23; representationalism (perception): II, 271-92; in works of art: X, 49-61.
Rescher, N.; AUTHOR: II, 121-9; V, 157-78; VII, 330-50; actions and events: IV, 25-32; complete concepts in Leibniz: VI, 1-13; conditional imperatives: IV, 1-12; conditional permission: I, 303-44; necessity de dicto and de re: V, 157-78; on obligation: I, 345-60; III, 373-98; preference: II, 253-70; on supposition theory: VII, 13-23; tenses: III, 17-32; universal quantifier: I, 161-79.
Resemblance; of ideas: I, 255-82.

Resnik, Michael David; AUTHOR: III, 185-96; VIII, 289-94.
Responsibility; and actions: II, 131-45; self-deception: II, 147-64.
Revolution; scientific: III, 17-32.
Rickman, H. P.; on obligation: I, 345-60.
Ricoeur, Paul; AUTHOR: IX, 85-102.
Riemann, G.; and non-Euclidean geometry: VIII, 87-117.
Right-Judgments: VII, 67-77.
Rightness; varieties of: IX, 211-25.
Rights; of citizens: VI, 15-26; and decisions: V, 63-79; and duties: IV, 45-57; of governments: VI, 15-26.
Rindler, Wolfgang; Mach's principle: VIII, 119-34.
Roberts, Fred S.; geometry of visual perception: VIII, 87-117.
Roberts, Lawrence D.; AUTHOR: VIII, 195-9.
Robinson, J. A.; Hume on relations: I, 255-82.
Robinson, R.; number theory: V, 199-211.
Robison, John; conditional permission: I, 303-44; 'ought' and 'forbidden': VIII, 165-77.
Roles; linguistic in Sellars: VII, 103-20; 152-63.
Rollins, C. D.; topic of statements: V, 107-38.
Roosen-Runge, P. H.; taxonomy: IV, 189-99.
Rorty, Richard; AUTHOR: V, 3-14; VII, 313-29.
Rose, Lynn E.; Plato's *Euthyphro*: VI, 119-37.
Rosen, Charles; Darwinian approach to history of philosophy: VIII, 381-98.
Rosenberg, Jay F.; AUTHOR: II, 341-58; IV, 209-23; VI: 27-40.
Rosenthal; correspondence with Sellars: VII, 152-63.
Ross, Alf; paradox in deontic logic: III, 373-98; and prescriptivism: VII, 56-67.
Ross, James F.; principle of sufficient reason: V, 49-61.
Ross, John Robert; higher sentences: V, 27-37.
Ross, Sir W. David; on Aristotle: VIII, 273-82; *atomos* in Aristotle: VI, 55-69; duties and rights: IV, 45-55; ought-sentences: VIII, 233-58; prima facie duties or oughts: VII, 67-77.
Routley, R.; AUTHOR: III, 129-53; VI, 335-59.
Routley, V.; AUTHOR: III, 129-53; VI, 335-59.
Rowe, William L.; AUTHOR: III, 259-84; V, 49-61.
Ruf, Henry L.; transcendental arguments: V, 15-26.
Rules; and behavior: I, 345-60; V, 81-96; constitutive of practices: V, 389; existence of: I, 63-79; Golden: IX, 211-25; and laws: II, 47-64; linguistic: I, 97-121; III, 169-83; and technical imperative: IX, 211-25; Wittgenstein: IV, 349-65; and why-questions: VIII, 371-80.
Rundle, B.; modality and quantification: I, 33-62.
Russell, Bertrand; asymmetry: VI, 139-51; on atomic and general facts: VII, 13-23; bare particulars: I, 211-12; being and existence: VI, 224-39; belief: II, 341-58; V, 273-97; Bradley's regress: VI, 27-40; causation: IX, 3-16; compossibility of individuals in Leibniz: VI, 1-13; definite descriptions: II, 373-89; VIII, 309-25; dependent

beings: V, 49-61; experience and knowledge: II, 271-92; facts: III, 325-43; V, 395-417; VI, 27-40; grammar and logic: VIII, 157-64; intensions: I, 161-79; logically perfect language: VI, 27-40; logically proper name: II, 359-72; material implication: VIII, 381-98; memory: IV, 59-70; modes of being: VIII, 67-82; paradox of predication: VI, 153-87; *Principia Mathematica*: III, 129-53; quantification: IV, 1-12; 'quantity': VI, 369-77; IX, 143-64; recurrence of events: V, 335-49; relations: I, 255-82; VI, 139-51; representations: I, 97-121; scientific theories: IV, 201-4; series of experiences: II, 341-58; sets as logical fictions: VIII, 259-72; singular terms: VIII, 309-25; theory of types: VI, 153-87; time: III, 1-16; truth: IV, 15-24; V, 199-211; VI, 27-40; VIII, 211-31; Wittgenstein on: VII, 233-47.

Ryle, G.; episodes: I, 97-121; intentionality: II, 271-92; VI, 281-87; language of public objects: VII, 152-63; meanings and rules: IV, 399-404; open generalizations: VII, 120-38; thinking: III, 355-72; topic of statement: V, 107-38.

Ryll-Nardjewski Theorem: III, 413-25.

Sadock, Jerrold; higher sentences: V, 27-37.

Salmon, Wesley; existence: III, 33-48; on induction: VII, 366-78.

Samaritan; good: I, 361-79.

Sameness; *vs.* identity: VI, 139-51.

Samesaying: X, 283-304.

Samuelson, Paul A.; consumer's choices: VIII, 13-24.

Sands, Matthew; particle and wave mechanics: VIII, 119-34.

Sanford, David H.; AUTHOR: II, 95-6; X, 313-25.

Sartre, Jean-Paul; on *The Age of Reason*: I, 1-8; intentionality: IX, 85-102.

Satisfaction; and belief: VI, 85-95; and preference: VIII, 1-12; and truth: V, 363-72; VIII, 1-12.

Saturated; for Frege: VI, 251-65.

Saunders, John Turk; private-language argument: V, 3-14; VII, 313-29.

Savage, C. Wade; amounts: IX, 143-64.

Savage, Leonard J.; lottery paradox: I, 401-11; personalist probability (Subjectivist): IV, 135-52; V, 299-312.

Saydah, J. Roger; on C. I. Lewis' ethical theory: IX, 211-25.

Saying; senses of: VI, 201-24.

Sayre, Kenneth; AUTHOR: IV, 81-91.

Scepticism; Hume's and Berkeley's replies to: V, 3-14; Strawson on: V, 3-14.

Schachter, S.; emotions: II, 1-23.

Scheffler, Israel; confirmation: II, 315-40; explanation: III, 61-72; VI, 85-95; intensionality (theory): X, 333-7; meaning change: IV, 399-404; ontological commitment: II, 25-46; VI, 378-87; theory change: IX, 17-32.

Schick, F.; interval-valued probability functions: V, 299-312.

Schlaifer, R.; probability judgments: V, 299-312.
Schleiermacher, F.; hermeneutics: IX, 85-102.
Schlesinger, G.; AUTHOR: III, 1-16.
Schlick, Moritz; logical truths and tautologies: IV, 135-52.
Schock, Rolf; truth and singular terms: VIII, 309-25.
Schoenfield, J.; Ryll-Nardjewski theorem: III, 413-25.
Schröder, E.; extensionality: I, 161-79; Frege on: VIII, 259-72.
Schrödinger, E.; cosmology: IV, 261-69.
Schuldenfrei, Richard; AUTHOR: III, 427-30.
Schumm, George F.; AUTHOR: VIII, 200.
Schwartz, R.; on grue: VII, 366-78.
Schwartz, Thomas; AUTHOR: VI, 97-117.
Science; Aristotle on the theoretical structure of: VI, 55-69; empirical and set theory: VIII, 289-94; as metaphysically neutral: IX, 55-72; philosophy of: VII, 1-12, 81-103, 120-38, 138-51, 313-29, 366-78; IX, 3-16, 17-32; philosophy of natural: VIII, 25-40; philosophy of social: VIII, 13-24, 53-65; reference of theoretical terms in: X, 261-82; unified: IV, 201-4.
Scientific Image; and Sellars: VII, 138-51.
Scientificity; ideal of: IX, 85-102.
Scott, Dana; definite descriptions: II, 359-72; formal semantics: IX, 193-204, 205-10; truth and singular terms: VIII, 309-25.
Scott, T. K.; on supposition theory: VII, 13-23.
Scotus, John Duns; cosmological argument: V, 49-61.
Scriven, Michael; AUTHOR: IX, 3-16; on criteria: VII, 313-29; explanation: II, 121-29.
Searle, John R.; on Austin: II, 209-27; commitment: V, 385-94; deriving 'ought' from 'is': V, 385-94; determinables: I, 243-54; on locutionary and illocutionary acts: VI, 201-33; promising: V, 385-94; proper names: I, 33-62; and propositional content: VII, 56-67; speech acts: V, 385-94.
Second-Order Logic; and existence attributes: II, 165-75; III, 33-48; modal logic: II, 359-72; and Russell's paradox: VI, 165-87.
Seeing; and seeing that: VII, 34-44.
Segal, T. I.; quantum mechanics: IV, 93-103.
Segerberg, Krister; AUTHOR: X, 221-44.
Self, in Wittgenstein: II, 341-58; SEE ALSO: Knowledge (Self-Knowledge); Self-Reference.
Self-Certifying: III, 197-209; SEE ALSO: Speech-Acts (Transcendental Arguments).
Self-Interest; and C. I. Lewis' ethical theory: IX, 211-25.
Self-Knowledge; and hermeneutics: IX, 85-102.
Self-Reference; quasi-indicators: II, 101-19; SEE ALSO: Knowledge (Self-Knowledge); Paradox (Liar).
Sellars, Wilfrid; AUTHOR: I, 97-121, 303-44; VII, 179-202; abstract entities: I, 215-29; analyticity and synthetic apriori: III, 155-67;

analysis: VI, 119-37; bare particulars: I, 211-12; on categories: VII, 103-20; contrary-to-duty imperatives: I, 381-400; definitional conventions: I, 161-79; dot quotes: IV, 285-93; identifying words: V, 107-38; identity thesis: VIII, 327-42; on induction: VII, 81-103; intentionality: II, 271-92; on intuitions: VII, 207-32; language: IV, 209-23; VII, 152-63; language learning: IV, 33-43; linguistic roles: IV, 285-93; meaning: IV, 33-43; phenomenalism: III, 49-60; VII, 120-38; on scientific image: VII, 138-51; on sense impressions: VII, 45-56; thoughts and things: II, 271-92; III, 169-83.

Semantics; abstract entities: II, 373-89; for adverbial modification: IV, 327-35; ambiguity: VII, 379-94; for conditional assertion: IV, 1-11; and conventionalism: IX, 375-406; events: V, 335-49; facts: V, 395-409; for first-degree entailment: VI, 335-59; formal: IX, 193-204; Frege's theory: VIII, 259-72; intensions and extensions: I, 97-121; II, 373-89; meaning and reference: II, 25-46; meaning relations: I, 161-79; III, 155-67; modal and intensional logic: V, 273-97; for natural language: IX, 33-53; substitutional quantification: V, 199-211, 363-72; VI, 224-50; for tense logic: IX, 193-204; truth: IV, 385-97; truth and meaning: VIII, 343-59; uses of: II, 359-72; III, 155-67; SEE ALSO: Sense; Reference; Logic.

Sen, A. K.; maximization thesis: VI, 97-117.

Sensations; and perception: IX, 55-72.

Sense; Berkeley's ideas of: IX, 55-72; and contents: I, 97-121; data: II, 271-92; and denotation: I, 207-9; II, 373-89; VII, 24-33; VIII, 135-56; impressions and perception: VII, 45-56; inner and outer (Kant): II, 271-92; and reference: IX, 85-102.

Sense-Data; and phenomenalism: VII, 120-38.

Sense-Data Theories; and geometry of visibles: VIII, 87-117.

Sense Experience; and non-Euclidean geometry: VIII, 87-117.

Sense Perception; causation: III, 49-60; definiteness and coherence: I, 123-38; evidence: III, 79-82; Hume: I, 255-82; Kant: II, 271-92.

Sensibility; Kant's theory of: II, 271-92.

Sentences; assertions: IV, 1-12; evaluative: II, 1-23; and facts: III, 325-43; IV, 209-23; language learning: IV, 33-43; and questions: V, 27-37; statements and propositions: I, 215-29; II, 209-46; V, 27-37; tensed: IX, 193-204, 205-10; and utterances: VIII, 179-84.

Separation Axiom; IX, 33-53; in second-order logic: II, 165-75.

Set Theory; models of: V, 363-72; nominalistic: IV, 225-40; ontic commitments of: VIII, 289-94; predicative: V, 363-72; Quine on truth: III, 111-28; sets and classes: VIII, 1-12; Skolem's paradox: III, 185-96; von Neumann-Bernays-Gödel: V, 363-72; VI, 189-97; Zermelo-Fraenkel: III, 413-25; V, 363-72; VI, 153-64, 189-97; VIII, 361-69; SEE ALSO: Logic, set theory.

Sets; and art works: IX, 115-42; and classes: VIII, 1-12; and individuals: IX, 33-53; iterative conception of: VIII, 289-94.

Shaffer, J.; ontological argument: VI, 251-65.

Shapere, Dudley; change of meaning: IV, 399-404; paradigms: III, 61-72; prima facie referring expressions: IX, 17-32.
Sharvy, Richard; AUTHOR: II, 303-14; VI, 119-37; amounts: IX, 143-64; classes and attributes: I, 231-41.
Sherwood, William of; modal statements: III, 155-67.
Shimony, Abner; probability: IV, 135-52.
Shipley; language learning: IV, 33-43.
Shope, R. K.; causal judgments: III, 61-72.
Shoemaker; Stroud on: V, 3-14.
Shwayder, D. S.; AUTHOR: 19-33.
Siegler, Frederick A.; AUTHOR: II, 147-64.
Signeling; and meaning: IV, 295-302.
Signification; of propositional term: IX, 211-25.
Sikorski, R.; Boolean algebra: IV, 189-99
Silverstein, Harry; simple and general utilitarianism equivalent: X, 173-94.
Simmel, Georg; rule-governed behavior: I, 345-60.
Simon; causation: IX, 3-16.
Simple Entities; Hume: I, 255-82.
Simplicity; descriptive *vs.* inductive: I, 283-97; and entrenchment: VII, 366-78; of theories: VII, 81-103.
Simpson, Thomas Moro; AUTHOR: I, 207-9.
Simulation; and possible worlds: VII, 394-407.
Singer, J. E.; emotions: II, 1-23.
Singer, Marcus; AUTHOR: IV, 56; ethical theory: IX, 211-25.
Singular; acceptance of singular statements: VII, 81-103; descent to: VII, 13-23.
Skinner, B. F.; behaviorism: V, 81-96.
Sklar, Lawrence; AUTHOR: VI, 289-309.
Skolem, Thoralf; paradox: III, 185-96; SEE ALSO: Löwenheim-Skolem Theorem.
Skolem-Löwenheim Theorem; and substitutional quantification: VIII, 361-69.
Skyrms, F. Brian; AUTHOR: II, 121-29; on induction: VII, 366-78; nonderivative knowledge: III, 227-31.
Sleigh, Robert C., Jr.; AUTHOR: I, 23-62; II, 391-8; intentionality: III, 49-60; quantifying into epistemic contexts: III, 399-408.
Smart, J. J. C.; passage of time: III, 1-16.
Smiley, Timothy; ought-to-be's: I, 381-400; truth and singular terms: VIII, 309-25.
Smith; language learning: IV, 33-43.
Smith, C. A. B.; interval-valued probability functions: V, 299-312.
Smith, Norman Kemp; introspection in Kant: II, 271-92.
Smullyan, Arthur; de re modality: II, 303-14.
Snapper, John W.; AUTHOR: VIII, 259-72.
Sneed, Joseph; AUTHOR: IV, 104.
Sobel, Jordan Howard; AUTHOR: V, 373-84; X, 195-219.

Society; II, 47-64; morality of civil: VIII, 53-65.
Sokolov, E. N.; neuropsychology: VIII, 327-42.
Solipsism; time: III, 17-32; Wittgenstein: II, 341-58.
Sommers, Fred; denial and negation: III, 211-18; self-reference: IV, 405-9.
Sortal Predicates: VII, 268-82.
Sosa, Ernst; conditional imperatives: IV, 1-12; preference: II, 253-70.
Soul; immateriality of: IX, 55-72.
Space; absolute: VI, 266-73, 289-309; Geometry of (visual): VIII, 87-117; Grünbaum: VIII, 25-40; individuation: IV, 109-34; Kant: II, 271-92; Reichenbach: VIII, 25-40; relativity: IX, 243-67; -time: IV, 261-69.
Spatio-Temporal; identification of particulars: V, 139-55.
Species; and determinates: I, 243-54; III, 95-101, 409-12.
Specker, Ernst; Quine's New Foundations system: IX, 33-53.
Speech Acts; II, 1-23; 209-27, 229-46; III, 169-83; IV, 1-12; V, 27-37; VI, 201-24; VII, 36-67; IX, 211-25; and intentional acts: IX, 73-83; statements: I, 215-29; II, 209-27; and transcendental arguments: V, 15-26.
Spencer, W. Alden; neuropsychology of perception: VIII, 327-42.
Spielberger, C. D.; VII, 152-63.
Spinelli, D. N; neuropsychology: VIII, 327-42.
Sprigge, T. L. S.; AUTHOR: IX, 429-45.
Square of Opposition: II, 95-6.
Stahl, Gerold; AUTHOR: III, 211-8; universal quantifier: I, 161-79.
Stalnaker, Robert C.; AUTHOR: II, 359-72; X, 65-75; on conditionals: VII, 394-407; propositions: IX, 193-204; subjunctive conditional: III, 95-101.
Stampe, Dennis; meaning: IV, 295-302.
Statements: analytic: IX, 211-25; Austin: II, 209-27; categorical: II, 95-96; III, 103-8; as events: IX, 205-10; identity criteria: V, 107-38; lawlike: VIII, 371-80; modal: III, 155-67; negation: III, 211-18; normative: III, 169-83; pragmatically necessary: VII, 247-68; and propositions: I, 215-29, 283-97; II, 229-46; IX, 211-25; and questions: V, 27-37; self-frustrating: IX, 211-25; tensed: IX, 193-204, 205-10; topic and concern of: V, 107-38.
States; psychological and physical: VIII, 327-42.
States of Affairs; disjunctive intrinsic value of: IX, 295-308, 429-46; events: V, 335-49; events and propositions: IV, 15-24, 25-32, 109-34, 209-23, 311-35; V, 179-89; and nonexistent entities: VIII, 67-82; and propositions: IX, 211-25.
States, Political; bases for relations between states and their citizens: VI, 15-26; criteria of individuation for: VI, 15-26.
Statistical; inference: I, 401-11.
Statistics: IV, 337-48.
Steck, Max; implicit definitions: III, 185-96.
Stein, Howard; AUTHOR: IV, 93-103; absolute motion: VI, 266-73; absolute space: VI, 289-309; time: III, 17-32.

Stenius, Erik; mathematical propositions: V, 253-71.
Stevenson, C. L.; attitudes: II, 1-23; fact, value, and norm: I, 139-60; meaning and context: IV, 285-93; ontology of art works: IX, 115-42.
Stich, Stephen P.; AUTHOR: IV, 385-97; truth: III, 111-28.
Stine, Gail Caldwell; AUTHOR: III, 399-408.
Stocker, Michael; AUTHOR: II, 65-73
Stone, M. H.; theorem: IV, 93-103, 189-99.
Story; world: VIII, 211-31.
Stout; memory: IV, 59-70.
Strawson, Peter F.; on artworks: IX, 115-42; on Austin: VI, 201-24; basic particulars: VI, 274-81; complete concept of an individual: VI, 1-13; on criteria: VII, 313-29; descriptive and revisionary metaphysics: V, 3-14; distributivity of contingency: III, 129-53; geometry of visibles: VIII, 87-117; goodness and conformity: II, 81-85; identification of particulars: V, 139-55; on implication: VII, 282-98; Kant and idealism: V, 15-26; mass nouns: VI, 369-77; material names: VI, 369-77; objective particulars: V, 3-14; ontological priority: V, 3-14, 139-55; ontology: III, 211-18; presupposition: V, 15-26; re-identification: I, 33-62; relations: IV, 209-23; on scepticism: V, 3-14; on sortal predicates: VII, 268-82; square of opposition: II, 95-96; IV, 1-12; statements: II, 209-46; subject predicate: V, 107-38; transcendental arguments: VI, 274-81; truth: I, 215-29; II, 209-27; VII, 379-94; verification principle: V, 3-14.
Stroke, G. W.; holography: VIII, 327-42.
Stroll, Avrum; propositions: II, 229-46.
Structure; deep structure and logical form: VIII, 157-64.
Stroud, Barry; transcendental arguments: V, 3-26.
Structure; deep: IV, 33-43; *vs.* function: III, 83-93.
Stuff; V. C. Chappell on: VI, 369-77.
Subjects; psychological: VIII, 165-77.
Subsistence; as mode of being: VIII, 67-82.
Substance; material: IX, 55-72; stuff: VI, 369-77; term: II, 359-72.
Substitution; of definitional equivalents in causal contexts: VI, 119-37; of equivalents: II, 253-70, 303-14, 359-72; failures of: VIII, 309-25; *salva veritate*: VIII, 343-59, 381-98; in second-order logic: VI, 165-87; for variables: II, 165-75.
Substitutional Quantification; II, 25-46, 177-85; III, 185-96; IV, 1-12, 271-77; V, 363-72; *vs.* objectual quantification: VI, 224-50; and ontological reduction: V, 363-72; and quotation: V, 213-14; *vs.* referential quantification: VI, 85-95; Tarski's convention *T*: V, 199-211, 363-72; VI, 85-95; SEE ALSO: Quantification: Substitution.
Substitutivity; of definitional equivalents: VI, 119-37; of identity: VI, 189-97, 240-50; principle of: VI, 228-34.
Sufferings; SEE: Acts.

Sufficient Reason, Principle of; and cosmological argument: V, 49-61.
Sumner, L. W.; AUTHOR: X, 145-71.
Suppes, Patrick; adicity of relations: V, 313-19; detachment in probability: I, 401-11; formal theory of value: VI, 97-117; geometry of visual perception: VIII, 87-117; measurement: IX, 143-64; principle of conditionalization: V, 299-312.
Support; and entailment: III, 345-49.
Suppositio; and quantification in Ockham: VII, 13-23.
Suppression; of propositions in logic: VI, 335-59.
Swain, Marshall; AUTHOR: III, 227-31.
Swinburne, R.; use of universe: IV, 261-69.
Syllogism; Aristotle's theory of: VI, 55-69; disjunctive: VI, 335-59; moral: IX, 211-25; and objects of knowledge: VIII, 273-82.
Synonymy; and analysis: VI, 119-37; criteria for: VII, 282-98; and exemplification: IV, 285-93; Leibniz: VIII, 381-98; Quine: I, 283-97; theory of meaning: VIII, 343-59; and translation: IV, 33-43, 385-97; SEE ALSO: Samesaying.
Synthesis; in Kant: VII, 207-32.
Synthetic; *vs.* analytic: I, 283-97; II, 25-46; III, 83-93; a priori: II, 271-92; III, 155-67, 325-32; IV, 135-52; V, 15-26; VI, 274-81; information: IV, 135-52; mathematical propositions: V, 253-71.
Systems; atomic: SEE, Nominalism; formal: III, 185-96; and laws: II, 315-40.
Szasz, G.; lattice theory: IV, 189-99.

Takeuti, Gaisi, set theory: VIII, 1-12.
Talmage, R. Stephen; AUTHOR: II, 91-4.
Tarski, Alfred; Convention *T*: V, 199-211; VI, 85-95; IX, 165-85, 187-92; definability: II, 254-6; mereology: IX, 143-64; and paradoxes: X, 305-11, quotation: VI, 224-39; and samesaying—Davidson's theory: X, 283-304; satisfaction: VIII, 1-12; substitution: II, 165-75; theorem: III, 111-28; V, 363-72; truth: I, 215-29; III, 111-28; IV, 1-12, 385-97; V, 199-211, 363-72; VI, 85-95; truth definition: VIII, 179-84, 309-25, 343-59; and truth predicates: VII, 247-68; 379-94; truth and satisfaction: VI, 85-95; ω-consistency: VI, 224-39.
Tastes; and preferences: VIII, 13-24.
Tautologies; and information: IV, 135-52.
Taxonomy: III, 95-101; IV, 189-99; SEE ALSO: Classification.
Taylor, Charles; Armstrong on intentionality: VI, 281-87; behaviorism: V, 81-96.
Taylor, Richard; action: II, 131-45, 187-90; on libertarianism: VIII, 195-99; principle of sufficient reason: V, 49-61.
Teichmann, Jenny; identity of statements: V, 107-38.
Teller, Paul; AUTHOR: VIII, 371-80; on projection: VII, 366-78; theory of reference: IX, 17-32.
Temperature; as kinetic energy: VIII, 119-34.

Temporal Logic; SEE: Logic, Tense.
Tense Logic; SEE: Logic, Tense.
Tense: VII, 164-78; future: VIII, 283-88.
Terms; abstractive singular: IV, 311-35; analytic propositional: IX, 211-25; applied amount: IX, 143-64; distributive singular: IX, 165-85; empirical propositional: IX, 211-25; non-denoting: IX, 165-85; non-denoting singular: VIII, 157-64, 309-25; propositions as: IX, 211-25; reference of theoretical: X, 261-82; singular: IX, 33-53, 165-85; substitution *salva veritate*: VIII, 381-98.
Territorial Sovereignty; and statehood: VI, 15-26.
Thalberg, I.; and A. B. Levison on action: VII, 299-307.
Tharp, Leslie H.; AUTHOR: V, 363-72; semantics and substitutional quantification: VI, 85-95; substitutional quantification: VIII, 361-69; Tarski: VI, 85-95; truth and substitutional quantification: VI, 85-95.
That-Clauses; I, 215-29; Davidson: V, 351-61; Wittgenstein: II, 341-58; SEE ALSO: Propositional Attitude.
Theoretical Terms; reference of: X, 261-82.
Theories; acceptance of: VII, 81-103; change of: IV, 399-404; comparison of: IX, 17-32; first-order nominalistic: VIII, 165-77; formal: III, 373-98; interpretation: IV, 93-103; interpreting: VIII, 289-94; kinetic: VIII, 119-34; metaphysics of: VI, 289-309; and necessary statements: VIII, 247-68; and observation: VII, 120-38; and ontological commitment: II, 25-46; IV, 201-4; VI, 378-87; ontology and ideology: IV, 241-60; reduction of: VIII, 119-34; regularity: II, 315-40; in science: I, 283-97; IV, 93-103, 201-4; scientific: VII, 1-12; scientific and reduction: X, 261-82; and sense perception: I, 123-38; and substitutional quantification: VIII, 361-69; uniqueness of scientific: IV, 201-4.
Things; I, 97-121; in themselves: II, 271-92; IV, 135-52; V. C. Chappell on: VI, 369-77.
Thomas, William J.; Skolem's paradox: III, 185-96; VIII, 289-94.
Thomason, Richmond H.; AUTHOR: II, 359-72; III, 95-101; Barcan Formula: III, 155-67; on natural kinds: VII, 351-65; predicate modifiers: IV, 311-35; species, determinates and natural kinds: III, 409-12; IV, 189-99.
Thompson, J. J.; electrons: IX, 17-32.
Thompson, Manley; on Kantian intuitions: VII, 232, topic of statements: V, 107-38.
Thomson, J. F.; truth: IV, 385-97; V, 361-51.
Thomson, Judith Jarvis; on grue: VII, 366-78; obeying rules: IV, 349-65; verificationism and private language argument: V, 3-14.
Thornton, M. T.; topic of statements: V, 107-38.
Thoughts; I, 97-121, 215-29; III, 355-72; and language: III, 169-83; IV, 33-43; and language in Sellars: VII, 152-63; memory: IV, 59-70.
Tichý, Pavel; AUTHOR: V, 273-97.

Time; and basic existents: IV, 279-83; and change: II, 303-14; IV, 279-83; duration of the present: V, 39-47; earlier-than: IV, 153-73; Grünbaum: VIII, 25-40; Hamblin on: IX, 193-204, 205-10; individuation: IV, 109-34; Kant: II, 271-92; and logic: IX, 205-10 and occurrence of events: IV, 15-24; passage of: III, 1-16; Reichenbach: VIII, 25-40; space-: IV, 261-69; travel: IV, 261-69; SEE ALSO: Logic, Tense.

Token-Reflexives; and operation signs: VII, 233-47.

Tokens; and materialism: VIII, 327-42.

Tolman; action: III, 49-60.

Topic; of a statement: V, 107-38.

Toulmin, S. E.; *Place of Reason in Ethics*: VII, 56-67; theory comparison: IX, 17-32.

Transcendental Arguments: VI, 274-81; possibility of: V, 15-26; and verificationism: V, 3-14.

Translation; II, 229-46; and formal languages: IX, 165-85, 187-92; indeterminacy: IV, 33-43; VIII, 327-42, 343-59; IX, 243-67, 353-74; and logical form: VIII, 167-64; radical: VIII, 25-40; regularity theory: II, 315-40; and samesaying: X, 283-304; substitutional quantification: VIII, 361-69; and synonymy: IV, 33-43, 385-97; and topic of statements: V, 107-38; truth and meaning: VIII, 343-59.

Transparent Contexts; SEE: Referential Opacity.

Troyer, John; ought-sentences: VIII, 233-58.

Truth; and ambiguity: VII, 379-94; bearers of: I, 216-29; II, 309-51; conditions for attributive modifiers: VI, 310-34; and demonstratives: VIII, 179-84; epistemic theory of: VII, 81-103; facts: V, 395-409; and falsehood in the *Sophist*: IV, 81-91; in Leibniz: VI, 1-13; VIII, 381-98; logical: VII, 247-68; and logical form: VIII, 157-64; mathematical: IV, 135-52; V, 253-71; and meaning: VIII, 179-84, 343-59; nominalism and platonism: I, 413-19; and paradox: X, 305-11; and possible worlds: VIII, 211-31; propositions: II, 373-89; Quine on: III, 111-28; IV, 201-4; relational senses of truth: VI, 85-95; and reference: IX, 17-32; saying what is true: VI, 201-24; and satisfaction: V, 363-72; VI, 85-95; semantics: IV, 1-12, 385-97; V, 363-72, 395-409; in set theory: VIII, 1-12; and singular terms: VIII, 309-25; and substitution quantifiers: IX, 165-85, 187-92; synthetic necessary: I, 97-121; of tensed statements: IX, 205-10; vehicles of: VI, 201-24; SEE ALSO: Semantics, Tarski.

Truth-Value; and denotation: VIII, 259-72; gaps: VIII, 309-25; and logical form: VIII, 157-64.

Tucker, A. W.; prisoner's dilemma: VIII, 53-65.

Tuomela, Raimo; information and definability: IV, 135-52.

Turing Machine: III, 49-60, 83-93; V, 81-96.

Turnbull, R. G.; on supposition theory: VII, 13-23.

Tversky, Amos; measurement: IX, 143-64; preference: VI, 97-117.

Types; and artworks: IX, 115-42; and materialism: VIII, 327-42;

theory: IX, 33-53; logic of sense and denotation: VIII, 135-56; simple, VI, 153-64.

Ullian, Joseph S.; AUTHOR: IX, 329-39.
Ultrafilters: IV, 189-99.
Unconscious; self-deception: II, 147-64.
Undecidability; of quantificational logic: VI, 139-51.
Underdetermination; of theories: VII, 1-12.
Understanding; and explanation: IX, 3-16; Kant: II, 271-92; objects of: VIII, 273-82; ontological argument: IV, 175-88.
Unger, Peter; on knowledge: I, 401-11.
Universals; and performance-works: IX, 115-42; theory of meaning: VIII, 343-59; SEE ALSO: Particulars.
Universe; closed: IV, 261-69.
Upatnicks, J.; holography: VIII, 327-42.
Urmson, J. O.; on Mill: X, 101-20; Russell on facts: V, 395-409.
Urquhart, A. I. F.; temporal logic: VII, 330-50.
Use; *vs.* meaning: IX, 193-204.
Utilitarian; C. I. Lewis as: IX, 211-25.
Utilitarianism; I, 81-90; act: III, 299-323; V, 237-52; X, 121-44; act and Mill's theory: X, 101-20; aggregation problems: X, 221-44; and alternative actions: V, 237-52, 373-84; coordination and group actions: X, 173-94; and death: X, 145-71; formulation and application: X, 121-44; mistakes and: X, 195-219; simple and general: VIII, 185-94; SYMPOSIUM ON: X, 101-244; and value: V, 373-84.
Utility; epistemic: VII, 81-103; expected: III, 285-97; generalized and simple: VIII, 185-94; personal probability: IV, 337-48; and preference: VIII, 13-24; and rational action: VIII, 53-65.
Utterances; and assertions: III, 169-83; in Austin: II, 209-27; and propositions: II, 229-46; and sentences: VIII, 179-84; of tensed sentences: IX, 193-204; of tensed statements: IX, 205-10.

Vaihinger, H.; on Kant: VII, 207-32.
Validity; in normative ethics: I, 139-60.
Value; alternatives and utilitarianism: V, 373-84; instrumental: V, 373-84; judgments: II, 1-23; social: IX, 211-25; C. L. Stevenson: I, 139-60; SEE ALSO: Preference; Valuations.
Valuations; and empirical knowledge: IX, 211-25.
Vance, Robert D.; AUTHOR: IV, 153-73.
Van Fraassen, Bas C.; AUTHOR: I, 161-79; III, 155-67; descriptions: II, 359-72; excluded middle: III, 211-18; facts: V, 295-409; free logic: VIII, 309-25; meaning relations: III, 155-67; IV, 311-35; predicate modifiers: IV, 311-35; self-reference: IV, 405-9; statement identity: V, 107-38.
Variables; in epistemic contexts: I, 23-62; individual: IX: 33-53; and

referential opacity: I, 9-21, 23-31; SEE ALSO: Logic; Quantification; Quantifiers.
Vaught, R. L.; truth: III, 111-28.
Veatch, Henry; statement identity: V, 107-38.
Vehicle-Content Model: II, 229-46.
Vendler, Zeno; AUTHOR: X, 35-46; events and actions: IV, 25-32; facts and events: V, 107-38.
Venn, J.; extensions: I, 161-79.
Verbal Behaviorism: VII, 179-202.
Verbs; intentional: IX, 165-85.
Verification Argument: for fallibilism: VI, 359-68.
Verificationism: and transcendental Arguments: V, 3-14.
'Very'; logical structure of: VI, 310-34.
Virtues: II, 81-85.
Visibles; geometry of: VIII, 87-117.
Vision; binocular and monocular: VIII, 87-117.
Von Mises, Richard; statistics: IV, 337-48.
Von Neumann, John; arithmetical depth: IV, 135-52; quantum mechanics: IV, 93-103; set theory: IX, 33-53.
Von Neumann-Bernays; system of set theory: VIII, 1-12.
Von Wright, Georg H.; actions: II, 131-45; III, 299-323; actions and events: VIII, 41-52; conditionals: IV, 1-12; contrary-to-duty imperatives: I, 361-79; deontic logic: III, 373-98; and deontic logic: VII, 407-12; obligation: I, 345-60; ought-sentences: VIII, 233-58; preference: II, 253-70; and prescriptivism: VII, 56-67; requirement: III, 73-82; technical norms: VIII, 13-24.
Vuillemin, J.; principle of abstraction: VIII, 259-72.

Wainwright, William J.; AUTHOR: II, 293-301.
Waisman, F.; open texture: III, 49-60.
Walker, A. R.; distribution in traditional logic: III, 103-8.
Wallace, John; AUTHOR: V, 199-211; VI, 85-95; IX, 187-92, 427-8; number theory: V, 363-72; ought-sentences: VIII, 233-58; semantics and substitutional quantification: V, 199-211, 363-72; VI, 85-95, 240-50; on sortal predicates: VII, 268-82; substitutional quantification: VIII, 361-69; substitutional quantifiers: IX, 165-85, 187-92; Tarski: V, 199-211; truth definition: VIII, 343-59; truth and satisfaction: VI, 240-50; truth and substitutional quantification: V, 199-211, 240-50.
Walsh, V. C.; consumer's preferences: VIII, 13-24.
Walton, Kendall L.; AUTHOR: 49-61; concepts and translation: V, 107-38; ontology of art works: IX, 115-42.
Wang, Hao; countable sets: III, 185-96; Tarski's convention *T*: V, 199-211.
Wants; actions: III, 49-60; IV, 367-83; generalized: IX, 165-85; and

intensional language: VIII, 165-77; and ought-judgments: VII, 67-77.
Warrant Statements: and ought statements: VII, 56-67.
Warren, A.; ontology of art works: IX, 115-42.
Wathing, J.; distributivity of contingency: III, 129-53.
Wedberg; dispositional predicates: II, 315-40.
Weinberg; cogito propositions: III, 197-209.
Weingard, Robert; AUTHOR: VIII, 119-34.
Weingartner, Paul; cogito ergo sum: I, 33-62.
Wellek, R.; ontology of art works: IX, 115-42.
Weinstein, Scott; AUTHOR: VIII, 179-84.
Welker, David; existence: V, 107-38.
Wertverlauf; of a concept: IX, 33-53.
Wertheimer, R.; *Significance of Sense*: VII, 56-67.
Weston, T. S.; AUTHOR: VIII, 361-9.
Weyl, H.; logical space: I, 161-79; quantum mechanics: IV, 93-103.
Wheeler, J. A.; Mach's principle: VI, 289-309.
Wheeler, Samuel C., III; AUTHOR: VI, 310-34; VIII, 233-58; mass nouns: IX, 143-64.
White Alan R.; AUTHOR: II, 247-51; on Austin: II, 209-27; VI, 201-24; thought: III, 355-72.
White, M. G.; C. I. Lewis' ethical theory: IX, 211-25.
White, Morton; on freedom and possibility: X, 313-25.
Whitehead, Alfred North; intensions: II, 373-89; passage of time: V, 39-47; *Principia Mathematica*: III, 129-53.
Whorf, Benjamin; language learning: IV, 33-43.
Wiesel, T. N.; neuropsychology: VIII, 327-42.
Wiggins, David; on identity: VII, 299-307; identity and change: II, 303-14; on sortal predicates: VII, 268-82.
Wigner, Eugene P.; De Sitter universe: IV, 261-69.
Wilkerson, T. E.; transcendental arguments: VI, 274-81.
Will; actions: II, 131-45; causation and decision: II, 65-73; SEE ALSO: Free Will.
Williams, B. A. O.; identity: IV, 241-60.
Williams, C. J. F.; AUTHOR: VIII, 273-82.
Williams, Donald; actualism: VIII, 211-31.
Williams, G.; duties and rights: IV, 45-55.
Wilson, Margaret: AUTHOR: X, 3-15.
Wilson, N. L., AUTHOR: IV, 295-302; identity through possible worlds: I, 1-8.
Winch, Peter; reality and concepts: IV, 135-52.
Wittgenstein, Ludwig; X, 34-45; actions: II, 131-45; facts: I, 413-19; III, 325-43; IV, 209-23; on induction: VII, 366-78; intentionality and the self: II, 341-58; language learning: IV, 33-43; language and playing chess: I, 215-29; IV, 209-23; logical form: VIII, 157-64; logical space: I, 161-79; III, 155-67; logical truths and tautologies:

IV, 135-52; names: V, 3-14; ontology and method in *Tractatus*: VII, 233-47; other minds: III, 259-84; pain: II, 191-207; picture theory: IV, 209-23; V, 199-211; private language argument: V, 3-14; VII, 313-29; propositions: IV, 59-70, 209-23; rules: IV, 349-65; temporal relations: IV, 153-73; truth-functions: V, 395-409.
Wolfe, Harold E.; non-Euclidean geometry: VIII, 87-117.
Wolfe, Julian; AUTHOR: I, 299-301; pretending to be awake: II, 91-94.
Wolff, Robert Paul; legitimacy of governments: VI, 15-26; on representations in Kant: VII, 207-32.
Wollheim, Richard; artists and spectators: VIII, 13-24; on natural kinds: IX, 115-42.
Wolterstorff, Nicholas; AUTHOR: IV, 109-34; IX, 115-42; Bergmann's ontology: V, 411-17; existing: VI, 251-65.
Woods, John; AUTHOR: I, 243-54; disjunctive syllogism: VI, 335-59; species and determinates: I, 243-54; III, 95-101, 409-12; statement topic: V, 107-38.
Woozley, A. D.; AUTHOR: I, 63-79; existence of rules: II, 47-64.
Worlds, Possible; SEE: Possible Worlds.
Wrong-Judgments: VII, 67-77.

Yoes, M. G., Jr.; AUTHOR: I, 193-200; VIII, 165-77; nominalism: II, 399-403; III, 427-30.

Zaring, Wilson M.; set theory: VIII, 1-12.
Zeman, J. Jay; on Peirce: II, 191-207.
Zemansky, Mark W.; temperature: VIII, 119-34.
Zeno; racecourse argument: V, 39-47.
Zermelo, E.; Aussonderungsaxiom: IX, 33-53; set theory: VI, 153-64; SEE ALSO: Logic, Set Theory; Set Theory.
Zermelo-Fraenkel; set theory: VIII, 1-12, 361-69; SEE ALSO: Set Theory, Zermelo-Fraenkel.
Zeuthen, Frederik; rational cooperation: VIII, 53-65.
Ziff, Paul; Grue on meaning: IV, 295-302; intensional contexts: V, 107-38; *Semantic Analysis*: VII, 313-29.
Zimmerman, M.; "Is-Ought: An Unnecessary Dualism": VII, 67-77.
Zorn, Max: Cocchiarella's System T*: VI, 165-97; Zorn's lemma: IV, 189-99.

Assistants to the Editor, 1967-76

Julian Young
Michael McKinsey
William J. Rapaport
Randall R. Dipert
